LAND OFFICE BUREAU.

BOARD OF PROPERTY.

Some novel and intricate questions arise in connection with applications for vacant land, in cases where such applications are alleged to have interfered with vested rights under former office grants from the commonwealth. While the law of location, the rules regulating calls for adjoiners, natural and artificial boundaries, courses and distances, seem to have been well defined in the long line of decisions by the supreme court, and which have found their way into the state reports through all the years since the opening of the Land Office for the sale of the land of the Province of Pennsylvania under the Penn family, yet perplexing questions still come to the surface and require the attention of minds schooled in the law affecting original titles. Some of these questions refer to the jurisdiction of the Secretary of Internal Affairs relative to the granting of title by the commonwealth, for it seems to be a pretty well-established fact that the state departments are limited closely to such authority as may have been specially conferred upon them by the constitution or acts of the general assembly, and that any act by the officers at the heads of these departments beyond the scope of such authorities is unwarranted and regarded in the law as being void.

A case in point arose in applications for portions of the beds of roads in the counties of Luzerne and Lackawanna. Before some of the lands embraced in these counties were surveyed under the authority of the commonwealth, many roads had been located either four or six rods in width. These roads have been designated as "certified roads," and when under the authority of the state the land was surveyed, the deputy surveyors adopted the lines of the roads in many cases as the limit of the tracts being surveyed, where the same were located adjoining such certified road, and so made their returns of survey to the Land Office. As the law of the commonwealth is well understood that the survey on the ground marks beyond question the limits of the tract, it would seem that the title to the territory embraced within the lines of the road was still left in the commonwealth subject to the right of its use as a public way. Many of these roads are underlaid with anthracite coal, which in some cases is worth many hundreds of dollars per acre. In-

deed, the coal is considered so valuable that the owners of the tracts adjoining the roads are said to have mined the coal beneath the beds of the roads without authority. Applications have been made to survey these roads under the vacant land law, with a view of securing the fee simple, so that the coal could be mined. The first section of the act of 1874, by which the department is governed in the granting of warrants for vacant land, provides that every applicant for a warrant to survey any of the vacant lands of the commonwealth shall produce to the Surveyor General a description of the land applied for, verified by affidavits of disinterested witnesses specifying whether the land is improved or not, and if improved, how long since the improvement was made, so that interest can be charged from the date of improvement, as required by law. The applicant is also required to make an affidavit that he verily believes that no warrant or other office right has previously issued for the land applied for; or, if a right has been granted, he shall prove that the same has been abandoned by the original applicant or warrantee. The first question that presents itself under an application for the bed of a road, the title to which is in the commonwealth, would seem to be, Is such a road vacant land within the meaning of the first section of the act of 1874? and if not vacant land, can the Secretary of Internal Affairs himself, or by direction of the board of property, legally grant the title of the commonwealth to the same?

Another important point to be determined would be whether or not the land applied for is improved or unimproved. Does the fact that the land is used by the public as a highway constitute an improvement within the meaning of the act just referred to? If it does, interest would have to be charged on the land from the time it was appropriated for the purposes of public thoroughfare. Many warrants have been granted in such cases and nearly all the land embraced within the limits of the certified roads in these counties was, under prior administrations, taken up by warrant and survey, and yet the right of the department to convey the title of the commonwealth to such lands is extremely doubtful.

An application was made during the year for an alleged piece of vacant land described as partly covered by water, situated in the county of Wayne. An investigation disclosed the fact that the tract described in the application was nothing more or less than a small lake, many of which are to be found in the counties of Pike and Wayne. When it is considered that the general law authorizing the granting of warrants for vacant land does not permit the issuance of warrants for islands in any of the rivers or streams of the commonwealth which had been declared public highways by act of assembly, and that the islands in such rivers and streams can only be conveyed under the laws especially providing for the appraisement and sale of the same, the question becomes a serious one, whether in the absence of special authority the Secretary of

Internal Affairs can grant, or the board of property legally order the granting of warrants to survey the bed of a lake. In this case a reference was made to the board of property and the warrant was ordered to be granted, as a number of precedents were found to exist extending over many years, which seemed sufficient for such action. These *ultra vires* questions do not often find their way into the courts, for while title is granted by the commonwealth and no vested rights are interfered with there is no one to raise the question of authority save the commonwealth, and this is rarely done.

Another intricate question has come before the board of property during the last year, under the act of 1848, which act, according to its title was passed for the purpose of encouraging the development of the mineral resources of the commonwealth. Among other things it provided that it should be the duty of the Surveyor General on application to issue his warrant for not exceeding 100 acres of land to any person who might apply for the same, directing the survey of any public navigable rivers of the commonwealth and providing a return under special instructions by the Surveyor General of surveys made in pursuance of such warrants. The second section of the act referred to provided, among other things, that only the right to dig and mine ore, coal, limestone, sand, gravel or other minerals should be given to the warrantee under the authority conferred. Immediately upon the passage of this act a very large number of warrants were issued in the anthracite coal regions. The following year the act was repealed, but was again revived by an act of assembly as to the counties of Allegheny and Fayette. The act as revived seems never to have been repealed, and it is therefore in force at this time, as its constitutionality has never been called in question. Under the revival of the original act of 1848, many warrants were granted for portions of the bed of the Monongahela river, where the river is the dividing line between the counties of Fayette and Washington. A few months ago returns of survey were made upon some of these warrants which had been in force for about ten years, and an examination of the surveys indicated that the land returned in pursuance of them extended across the river, and, as the act had fixed the middle of the river as the exact boundary line between the two counties named, a question arose as to the right of the Secretary of Internal Affairs to accept a survey which included a portion of land in Fayette county and also some territory not within the limits of Fayette, but included within the limits of Washington county. It was the opinion of the Secretary of Internal Affairs that he had no right to accept these surveys on account of their covering territory not within the limits of Fayette county, and the case was carried to the board of property and considered, and the secretary was directed to refuse acceptance of the surveys. The case was subsequently brought before the board on a petition presented by Mr. Robert Umbel, an attorney of Uniontown,

who appeared for the original warrantees, whereupon the board decided to adhere to the former position taken in the case. The petition was renewed on the 20th of September, 1891, and the case was referred to the Attorney General for his opinion. A concise and carefully prepared statement of the law in the case, with reference to the several acts of assembly, and the Attorney General's opinion, are given herewith.

OFFICE OF THE ATTORNEY GENERAL,
HARRISBURG, November 24, 1891.

ISAAC B. BROWN, ESQ.,

Deputy Secretary of Internal Affairs :

DEAR SIR: Your letter of November 17th, in reference to the seven applications made to your department by Robert Umbel and others for warrants for survey for portions of the bed of the Monongahela river, located between the counties of Washington and Fayette, and in which it is stated that the Board of Property had referred this matter to the Attorney General for his investigation and opinion, has been received.

The application of Robert Umbel and the six others are dated July 9, 1891, and they "make application for a warrant to survey a certain part of the bed of the Monongahela river, * * * being a part of the same portion of the bed of the said river for which warrants were issued to John Snively and others January 9, 1865, which warrants expired by limitation of law. The act of assembly, upon which these warrants for survey are claimed to be made, was passed April 11, 1848 (P. L. 1848, p. 533). This was a general law, but was repealed by act of assembly on 29th of March, 1849 (P. L. 255). A subsequent act approved on the 18th day of April, 1864 (P. L. 1864, p. 437), revising and re-enacting the act of 11th of April, 1848, so far as to apply to and embrace the county of Fayette.

Under the act of 18th of April, 1864, warrants for survey were issued from the Land Office on the 9th day of January, 1865, to John Snively and others, as recited in the act of assembly approved February 16, 1866. As also recited in this act, it appears the Attorney General had given his written opinion to the Surveyor General that such warrants could not be fully laid on account of the boundary line being in the middle of the river. This was doubtless upon the position that the act of assembly of 1864 applied only to the county of Fayette, while, beyond the middle of the river, the land was in the county of Washington.

Two questions arise under the applications now made to your office :

1. Did the act of 16th of February, 1866, so remedy or cure the act of 18th of April, 1864, as to permit the application for warrants to John Snively and others to include lands not in the county of Fayette?

2. If it did include the lands in those warrants within the county of Washington, or beyond the middle of the river, would this act give any authority to your office now to issue warrants to other persons than the ones mentioned in the act of 1866?

In answer to the first question, the act of assembly of 1864 applied only to the county of Fayette. The act of 1866 was a special act for a special purpose. Its title is "An act relating to surveys in Fayette county," and nowhere in the language of the act itself is any expression made that it related to surveys beyond the county of Fayette. Undoubtedly it was the intention of this act to embrace the portion of lands beyond the middle of the river that were included in these warrants, but this intention is not directly expressed in the act of assembly and only by inference could it be stated that it meant to go beyond the county of Fayette so far as the surveys themselves went beyond the boundary line of Fayette county. It is extremely doubtful whether this act of assembly, upon its face and taken by itself, without outside proof of what was contained in these warrants, could be held to include lands beyond Fayette county, and I think, upon this ground, these warrants should not be laid.

In answer to the second question that arises under this application, the act of 16th of February, 1866, is a special act, not only for Fayette county, but it also has a special purpose for the survey of the warrants therein mentioned to John Snively and others. I think that this act of assembly, being special and particular, could not be held to extend beyond the warrants therein referred to. It does not seem to authorize warrants to survey to any other persons than the John Snively and others to whom the warrants of January 9, 1865, had been issued, and the special object of this act undoubtedly was to survey these warrants and no others. It cannot be contended or held that this act of assembly would authorize a survey to be made upon warrants other than those mentioned in the act itself. As recited in the present applications, the warrants to John Snively and others have expired by limitation of law. The purposes of this act, therefore, have not been carried out in the warrants to which it refers, and therefore the act would not authorize the issuing of warrants to survey to other persons than those therein mentioned.

I therefore advise you that the warrants to survey, as asked for, or as requested in the applications to which you refer in your letter, ought not to be granted.

Very truly yours,

JAMES A. STRANAHAN,

Deputy Attorney General.

This opinion was afterwards approved by the board of property, and, so far as the department is concerned, will control the practice as to the acceptance of surveys for any portion of the bed of the Monongahela river when such surveys include territory within the limits of counties not subject to the act of 1848 and its supplements.

Another important question that was presented to the board of property was one regarding the right of the commonwealth to grant a war-

rant for a tract of land for which prior grant had been made and for which purchase money had been paid. It arose in the application of John Locke, who applied for 200 acres of unimproved land, situated in Armagh township, Mifflin county. In the application it appeared that the land applied for was the same for which a warrant had been granted to one John Treaster on the 19th of September, 1882, and upon which there was never any return of survey made. The purchase money had been paid by the warrantee, but he, it seemed, had abandoned the right which he had acquired by virtue of his warrant, the applicant seeming to take the position that it was the duty of the warrantee to cause a return of survey to be made under his warrant, and, having neglected to do so after the lapse of seven years, the commonwealth had a right to grant a warrant to a subsequent applicant. This case was referred to the Attorney General for his opinion, which is given herewith:

OFFICE OF THE ATTORNEY GENERAL,

HARRISBURG, *June 24, 1891.*

HON. ISAAC B. BROWN, *Deputy Secretary of Internal Affairs:*

DEAR SIR: I have your communication of the 12th instant, transmitting an inquiry from the board of property in reference to the application of John Locke for a warrant for two hundred acres of unimproved land, situated in Armagh township, Mifflin county. It appears from the application for a warrant that the land applied for was the same for which a warrant was granted to one John Treaster on the 19th of September, 1882, upon which there has been no return of survey, but for which the purchase money has been paid by the warrantee referred to. The application of Locke is dated the 26th of November, 1890. The question to be considered is whether the commonwealth, having received the purchase money for a tract of land, and for which a warrant has been granted, could again grant a warrant and receive the purchase money for the same tract, the original warrantee having abandoned the same?

It is a principle often announced in the decisions of the supreme court, and may be considered as the settled law of the commonwealth, that he who obtains a warrant for the purpose of locating land thereunder, must follow up the requisites necessary to put the title out of the commonwealth *with due diligence*, and it is the duty of the holder of a warrant, descriptive or indescriptive, to have his warrant, with survey, returned to the office of the Secretary of Internal Affairs within a reasonable time. This is essential in order that the commonwealth may have precise knowledge of the land that has been actually appropriated to it, and be paid for any surplus that has been surveyed into it. *McGown vs. Ahl*, 53 Pa. St. 84. The survey must be returned within a period that has been fixed not to exceed seven years. *Chambers vs. Mif-*

fin, 1 Penna. R. 78; *Star vs. Bradford*, 2 *id.* 384; *Stranch vs. Shoemaker*, 1 W. & S. 166; *Wilhelm vs. Shoop*, 6 Barr, 21. In *McGown vs. Ahl*, *supra*, Chief Justice Woodward says:

"By taking the warrant a duty to the commonwealth is assumed which can be discharged only by making a survey and return within reasonable time, and if it be not performed within the period that limits the commonwealth's indulgence, the right is postponed to an intervening right that has been duly pursued."

The doctrine established by the courts in considering the question of the relation that a warrantee bears to the commonwealth is, that whilst a duty is imposed upon a warrantee to proceed expeditiously and within a reasonable time to have a survey made, and his rights definitely ascertained and fixed by patent, any indulgence shown by the commonwealth is a matter of grace as against one who is careless and negligent of his rights. The question before us is not one of adverse claimants to the same parcel of land under conflicting warrants, but one which involves the right of the commonwealth to grant a descriptive warrant covering a prior warrant granted to one who negligently has failed to do his duty. The payment of the purchase money cannot effect the status of the commonwealth where the warrantee has been wilfully negligent and guilty of a laches, as appears in this case. It is to the interest of the commonwealth that her lands be settled upon and improved, and to assist in so doing the law should have regard for the diligent and not the slothful.

I am therefore of opinion that a warrant may lawfully issue to the applicant, John Locke, for the land described in the application.

Very respectfully yours,

W. U. HENSEL,
Attorney General.

In view of this opinion, therefore, it will be the practice of the department to grant warrants for the re-survey of land in cases where a warrant has been previously granted, but no return of survey made in pursuance thereof, and where the evidence of abandonment is clear or may be legally presumed. This opinion is based upon the decisions of the supreme court, which clearly show that the commonwealth, after the lapse of seven years, has a right to presume that the warrantee has abandoned his rights, and that the right to grant a second warrant is based upon the fact that the commonwealth is entitled to the balance of purchase money and such fees as may not have been paid.

The policy of the present administration of this department, in executing the land laws of the commonwealth, has been to keep within the scope of the authority of the constitution and law, and when there is an approach to a point of uncertainty to refer the matter to the board of property that seems to be clothed with authority to pass upon these important and intricate questions.

COPYING OLD SURVEYS AND OTHER RECORDS.

Notwithstanding the employment of the force of the department with the necessary routine work, a considerable advancement has been made in copying old surveys and making new warrant and patent registers. The warrant register, embracing the lands in the "Late Purchase," has been recompiled, enlarged and much additional information collected and recorded, which greatly facilitates the making of searches. Heretofore this register contained only the number of the warrant, name of warrantee, quantity of land applied for, date of warrant, date of return and number of acres returned; and in many cases the register failed to give all these items. In the work of recompiling, the original record was, so far as possible, completed and, in addition to this, the name of the patentee, the book, volume and page of record of the patent, together with the book and page where the original survey had been copied under the act of 1833, were given. By the completion of these records and the additions referred to, a fairly full description in a single line of the warrant register is given of most of the several tracts of lands situated in that part of the "Late Purchase" secured from the Indians comprised within the counties of Tioga, Potter, McKean, Elk, Cameron, Jefferson and parts of Bradford, Clinton, Clearfield, Indiana, Armstrong and Clarion.

A new warrant register has also been prepared of Northumberland county, which embraces a description of 13,101 different tracts of land; also one of Northampton county, embracing 8,143 descriptions of different tracts. The task of compiling the information contained in these records has required the most constant careful attention of a considerable force of the department. The engrossing has been excellently and faithfully done, and for the convenience of the public, and for facilitating the work of the bureau, the completion of the work is an accomplishment of great value. The compilation of warrant registers and the engrossing of them for the tracts of land surveyed since the formation of the counties of Lehigh, Bucks, Wayne, Pike and Berks, is now in process and will probably be completed before the closing of the next fiscal year. During the year just closed we have had bound the copied surveys, most of which have been copied under the present administration, and they form two volumes designated respectively "R and S of copied surveys." No one familiar with the importance and inestimable value of these surveys, records and ancient papers, will fail to appreciate the necessity that has long existed for an advancement in this work, and which is now pressing with increasing urgency as the ravages of time leave their impress every year more plainly on these records upon which the titles to real estate throughout the commonwealth so largely depend. The work of making a new patent index has been pushed forward, and one volume embracing a record of about fourteen thousand patents is

nearly completed. Looking over the recommendations of the Surveyors General and the Secretaries of Internal Affairs, who have had the custody of these documents for more than a century, and reading the recommendations of Governor Beaver to the legislature, made during his term of office, it has seemed to be a public duty devolving upon this department to ask for an appropriation for further advancing this important work. To those who are not familiar with the importance of these records, the reading of the following extracts from the reports of former officers of the department and the Governor of the Commonwealth, must be convincing.

REFERENCES TO "MUTILATED SURVEYS" CONTAINED IN OFFICIAL REPORTS AND DOCUMENTS.

"I would beg leave to mention, that there are a great many old surveys which require copying for preservation. Papers that are frequently taken from the files and copied will wear out. There are thousands of surveys which are very much worn. Those evidences of title ought to be preserved, but for want of an appropriation for that purpose, it cannot be done."—(J. Porter Brawley, Surveyor General, report for 1855, p. 7.)

"The copying of old and defaced surveys under the special appropriation of the last session of the legislature, has made considerable progress. Many of the surveys are very much defaced, and it requires great care to decipher the courses and distances of many. The copying has been, so far, exclusively confined to unpatented surveys. The courses and distances of patented surveys are written out in words at length in the records of the patents. An additional appropriation will be requisite to copy such defaced papers."—(J. Porter Brawley, Surveyor General, report for 1856, p. 7.)

"The surveys found that require copying, number near five thousand. Much depends upon their preservation. The commonwealth has guaranteed their safety, and is bound to preserve them. All the time that can be spared from the current business, is devoted to the copying of these, a work which requires great care, as many of them are in a very mutilated condition."—(John Rowe, Surveyor General, report for 1857, p. 7.)

"Until a tract of land has been patented there is no record of the survey in the department, except the draft returned by the deputy or county surveyor. These drafts are liable, in daily handling, to become worn or misplaced. The older ones, some of which have remained in the files for more than a century, are wearing out, the ink is fading, and in some cases, it is impossible to decipher the writing and figures. As other duties permit, the work of copying these surveys, authorized by an act of assembly, has been carried on."—(William McCandless, Secretary of Internal Affairs, report for 1877, p. 6.)

“During the year five hundred and sixty-four copies of worn surveys were certified in conformity with the act of the 15th of February, 1833, bound in two volumes, and designated respectively ‘N’ and ‘O.’ The binding of the surveys, copied by authority of the act mentioned, was begun in the year 1856, under the administration of J. Porter Brawley, Esquire, Surveyor General, and continued by succeeding administrations, until there are now fourteen volumes completed, containing, in the aggregate, seven thousand one hundred and twenty surveys.

“The files of the department contain thousands of warrants, surveys and other documents relating to the original title to lands, that could not be replaced if lost or destroyed, that in the innumerable handlings necessary in every day searches, are becoming so worn and defaced as to render the deciphering of the figures, letters, lines and streams often a difficult task”.—(William McCandless, Secretary of Internal Affairs, report for 1878, pp. 6 and 7.)

“In the method of acquiring title to vacant land as adopted by the proprietary of the province and followed by his successors and the commonwealth, a warrant or order preceded any official survey. Upon this authority the officer of the proper district made a survey of the particular land applied for, of such shape as the fancy or interest of the applicant dictated, and returned a draft of his work to the Surveyor General. This draft remained the only official evidence of the survey or its boundaries until a patent was granted in which the bearings, distances, corners area, adjoiners, and date of the office title were particularly noted. As a rule, the patent was recorded before delivery, and thus the office has in most cases two, and where the written returns are extant, three records of the metes and bounds of a survey. There remain thousands of unpatented tracts. Of these, the only description of the survey is contained in the returns of the deputy or county surveyors. A large proportion of these returns were made on inferior paper, some are very old, and by constant handling have become so worn that, with the browning of the paper and fading of the ink, it is often difficult, and sometimes impossible, to decipher the letters and figures. The work of copying into books the decaying returns of surveys, of both patented and unpatented tracts, as authorized by the act of February 16, 1833, is carried on as rapidly as the prompt dispatch of the current business of the department will admit, but the amount of labor of that character is far greater than can be performed by the present force of the department as promptly as its importance demands.”—(J. Simpson Africa, Secretary of Internal Affairs, report for 1884, pp. 7 and 8).

“Many original applications, warrants, surveys, and other ancient papers—invaluable links in the chain of original title to lands in every section of the commonwealth—accumulated during the more than two centuries that have passed since the land office was first opened, are becoming worn and defaced by the daily handling to which they are neces-

sarily subjected in making searches and in preparing copies or connected drafts for parties interested in the tracts to which they relate. The flimsy paper upon which some of the documents were prepared has been falling to pieces for years, and especially in cases in which inferior ink was used, it has become difficult and sometimes impossible to decipher the courses, distances or other writing. A law passed on the 16th day of February, 1833, authorizes the copying of the old returns of surveys or other official papers, and pursuant thereto, many papers have been copied and placed in the regular files. In cases of returns of surveys, some of the copies, by the folding and unfolding occurring in years of constant use, have become as much worn as the originals, and some better method of preservation became necessary. In 1856 the plan of copying old returns of surveys on sheets for binding into books was introduced, and since that time over eight thousand copies have been made and bound into sixteen volumes. The originals, suitably indexed, were filed away in bundles and thus saved from further wear and tear, except on rare occasions when it became necessary to refer to them. But, as no provision was ever made by law for a special clerical force to conduct this work, it could be done only in intervals of current business. Public attention has been called to the condition of these ancient papers in former annual reports, and the importance of their preservation warrants a reference to the subject from time to time until the general assembly shall, in its wisdom, direct the adoption of such measures as will secure that end."

"When county records, which nowhere are subjected to such frequent handling as those of the land office, need to be copied or re-indexed, power to do so is readily obtained through an order of the proper court and the expenses are defrayed from the county funds. But in any of the public offices of the commonwealth, similar work, if beyond the ability of the regular clerical force to accomplish, can be performed only by an appropriation made by the legislature for that purpose. It is to be regretted that the general assembly has hitherto given such matters too little attention. It is neither wise nor economical to defer the duty of properly caring for public archives at the risk of ultimate obliteration or destruction of valuable papers, the loss of which could not be supplied."—(J. Simpson Africa, Secretary of Internal Affairs, report for 1885, pp. 9 and 10.)

* * * * * "On account of the increase of work in this branch of the bureau (land office) it has been impossible to make any perceptible advancement in the copying of old surveys. Under the act of 1833 it is the duty of the department to employ the force, so far as other business will permit, in the copying of old and mutilated surveys. This act has been in force for upwards of fifty years, and yet there have been only about ten thousand copies made. Undoubtedly there might have been much more accomplished. It is proper now, however, to speak only of

the present possibilities of the bureau in this direction, in order that the legislature may appreciate the duty devolving upon it, and provide the means whereby the purpose of the act of 1833 may be accomplished. That this needed work cannot be done by the present force may be inferred from the fact that since 1874 the work of the department has been enlarged by transferring to it the railroad bureau, the canal and state road records, the county and state boundry line reports, the bureau of vital statistics and the state weather service bureau, without any increase being made in the number of employes.

“There should be provision made for the employment of at least three skilful and careful draughtsmen, whose services should be devoted exclusively to the copying of the old papers in the department that are falling to pieces from age. Thousands of these papers are so badly mutilated that perfect copies cannot be made of them, but the vast majority are still susceptible of complete reproduction, and, as many of them are closely connected with the early history of the commonwealth, a spirit of patriotism should inspire the proper authorities to make provision for the preservation of the information they contain. They are invaluable to the people as title papers, and their disappearance from any cause would lead to the most hopeless confusion and costly litigation, and would, in many cases, destroy the possibility of ascertaining the facts necessary to settle the disputes that are sure to rise regarding original titles. In former reports attention has frequently been called to the bad condition of these papers, and legislation has been suggested whereby it might be better; but unfortunately nothing has yet been done. * * * *

“In order that these papers may be preserved so far as possible in the meantime, the department has provided 2,500 document boxes, in which they have been filed.”—(Thos. J. Stewart, Secretary of Internal Affairs, report for 1887, pp. 11 and 12.)

* * * * “It may safely be said that the work of the land office bureau has materially increased within the last two or three years, and it has been impossible to make any marked advancement in the copying of original surveys and other mutilated papers, as required by the act of 1833, for the reason that the force provided by law in this department has been employed constantly in performing the regular routine work. The duty imposed under the act referred to has, therefore, for the reasons given, not been discharged. In this connection it is proper to refer to the report for 1887, for which, in relation to this subject, see preceding sections.

* * * * “These suggestions are now renewed, and action is still more earnestly solicited, for the reason that the necessity for the reproduction of these old and mutilated papers grows more apparent each year.”—(Thos. J. Stewart, Secretary of Internal Affairs, report for 1888, pp. 12 and 13.)

COPYING OLD AND MUTILATED SURVEYS.

"The copying of surveys and the construction of connected drafts from the original surveys constitute a large portion of this work and keep the force of draughtsmen constantly employed, or at least to such an extent as to prevent any material advancement of the work imposed under the provisions of the act of 1833, to wit: the copying of original papers. During the year, therefore, we have been able to copy only about one hundred and fifty of the old and mutilated surveys. The necessity of the reproduction of these original papers has often been referred to in the annual reports of the Secretary of Internal Affairs, as well as in the reports of the Surveyor General. The Executive of the commonwealth has also called the attention of the legislature to the imperative necessity of copying the original papers on account of their importance as historical records of the colonies and the early days of the commonwealth, and also on account of their inestimable value for settling disputes arising between land owners.

"With these records properly copied, much expensive litigation might be avoided; but if this is not done, prolonged controversies at law will be sure to occur, resulting in conclusions unsatisfactory to the parties in interest, and leaving titles in a clouded and unsettled condition.

"Governor Beaver, in his message to the last legislature, especially called attention to the duty devolving upon it to make some provision for doing this necessary work. He recommended that draughtsmen be employed whose whole time and attention could be devoted to re-copying surveys. This recommendation of the Governor, while prompted by a desire to serve the best interests of the public, seems to have been overlooked by the legislature.

"During the past year the department has made provision for permanently caring for such of the original surveys as have been re-copied. Each of the originals has been folded, and, with all the mutilated parts, placed in an envelope made of the most durable paper and securely filed away in packages of fifty each, in iron cases, in such a way as to preserve them so far as it is possible to do so. It is hoped that, at no distant day, provision will be made for re-copying all the old valuable papers and records which are of so much importance to the student of history and the material interests of the commonwealth. When it is considered that fifty-six years ago the legislature authorized this work to be done, and that, as yet, less than 10,000 surveys have been re-copied, the little advancement made is very apparent."—(Thos. J. Stewart, Secretary of Internal Affairs, report for 1889, pp. 12 and 13.)

Extract from the message of Governor Beaver, 1889:

"There are, in the Department of Internal Affairs, some one hundred and fifty thousand copies of ancient surveys and other papers, which, by age and handling, have become, to some extent, illegible and are in danger at least of being partially destroyed. Provision should be made for copy-

ing such papers. The force in the department will not allow of its being done to any great extent in connection with the regular work of the office. It is believed, however, that if authority were given the secretary to employ an additional thoroughly skilled draughtsman, he, with the aid of the regular force in the office, might be able to accomplish very much in this direction."

Feeling the force of the evidence embraced in the foregoing extracts, and also regarding the opinions of those who have seen the necessity for action in this matter, we addressed a communication to the chairman of the House appropriation committee, requesting that an appropriation be made for the purposes indicated. The letter is given herewith:

DEPARTMENT OF INTERNAL AFFAIRS,
COMMONWEALTH OF PENNSYLVANIA,
HARRISBURG, *February 12, 1891.*

Hon. J. S. FRUIT, *Chairman Committee on Appropriations, Harrisburg, Pa.:*

SIR: The Governor of the Commonwealth in his message to the legislature of 1889, and also in that to the legislature of 1891, called attention to the condition of the records and surveys in the land office of the Department of Internal Affairs, and suggested that inasmuch as they were mutilated and worn by long usage so as to be partially illegible and in danger of complete destruction, they should be carefully copied by skillful draftsmen. He further recommended that provision be made for such work and that the same be conducted under the supervision of the Secretary of Internal Affairs.

As these records constitute an important part of the title to real estate, and should be put beyond the danger of loss by further mutilation, the Secretary of Internal Affairs respectfully requests your honorable committee, at such time as may be convenient to them, to visit the department and by personal inspection not only convince themselves, but thus be enabled to determine what legislation is proper and needed under the circumstances.

Very respectfully yours,

THOS. J. STEWART,
Secretary of Internal Affairs.

Pursuant to the request, the House appropriation committee inserted in the general appropriation act for the session of 1891 (see pamphlet laws, page 263), the following clause:

For the employment of skilled draughtsmen to copy old and mutilated surveys and other ancient and valuable documents now on file in the Department of Internal Affairs, as required by the act of February 16, 1833 (pamphlet laws, page 47), and for the purchase of county warrantee maps, the sum of \$6,000 for each of the years ending respectively June 1, 1892, and June 1, 1893.

This clause passed both branches of the legislature without opposition, but unfortunately met with objections in the executive chamber, where it received Governor Pattison's veto. The important work, therefore, of putting in more durable form the valuable records of land titles, can now be advanced only at intervals when the force of the department is not otherwise employed.

MAPS, REPORTS, ETC.

Under the act of May 8, 1876, maps and reports have been numbered and filed among the department records during the past year as follows, to wit:

Railroads and Canals.

No. 65. Lake Erie and Ohio River ship canal. General map of the proposed canal to accompany the report of the ship canal commission of Pennsylvania, authorized by a joint resolution of the general assembly approved May 8, 1889. Filed February 20, 1891.

No. 66. Lake Erie and Ohio River ship canal. Profile of the proposed canal from Conneaut harbor to the Ohio river at Rochester, Pa. Filed February 20, 1891.

No. 67. Lake Erie and Ohio River ship canal. Map of Lake Erie harbor, accompanying the general map of the proposed canal. Filed February 20, 1891.

No. 68. Southern Central railway map, showing the location of the Southern Central railway from the west side of the Susquehanna river at Sunbury, Pa., to Dauphin, Pa. Filed May 12, 1891.

No. 69. Southern Central railway. Profile of the Southern Central railway from Clemant Station, opposite Sunbury, to Girty's Notch. Filed May 12, 1891.

No. 70. Southern Central railway. Profile of the Southern Central railway from Dauphin to Girty's Notch. Filed May 12, 1891.

No. 71. Southern Central railway. Map showing the location of the Southern Central railway from Rockville, Pa., to Harrisburg, Pa. Filed May 15, 1891.

No. 72. Southern Central railway. Profile of the Southern Central railway from Rockville to Harrisburg. Filed May 15, 1891.

State and County Lines.

No. 128. Map of the boundary line between the counties of Allegheny and Washington. Filed June 16, 1891.

BOUNDARY LINES AND BOUNDARY LINE MONUMENTS.

No examination of the boundary line monuments has been made during the present year, as the amendatory act of 1889 provides for their examination only once in every five years. As appears by the reports made last year, a careful examination was made of the monuments

between this state and New York, and all those which had been misplaced were reset in their proper positions, and those that had been damaged were repaired so far as possible. The department has had some correspondence with the authorities of the state of Maryland, with a view of repairing the monuments along the Mason and Dixon line; but as the legislature of that state had given no authority to its state officers to co-operate with the officers of this state, nothing has been done, except that the legislature now in session in that state will be asked to make an appropriation to cover its share of the expenses of repairing the monuments along the line, and during the coming year it is expected that whatever can be done to restore them will be done. During the session of 1889 an act was passed by the Pennsylvania legislature making an appropriation for the re-surveying of the circle of New Castle, which should mark the limits of the State of Delaware where it adjoins this state, along the line of Chester and Delaware counties. Under the authority of the act referred to, a commission was appointed by Governor Beaver, consisting of Hon. Wayne MacVeagh, of Philadelphia; Robert E. Monaghan, Esq., of West Chester, and William H. Miller, Esq., of Media, who were to co-operate with a similar commission appointed on the part of the State of Delaware, for the purpose of re-surveying and re-establishing the line which marks the circle of New Castle. The commission appointed for Pennsylvania were of the opinion that the appropriation made under the act of 1889 would not be sufficient to cover the necessary expenses which would be incurred in performing the work, and in pursuance of their request, an additional appropriation was asked for. A clause was inserted in the general appropriation act of 1891, for the sum of three thousand dollars, which it was thought would be sufficient to cover all the expenditures necessary in carefully surveying and marking with enduring monuments the line between the States of Delaware and Pennsylvania. This appropriation did not receive the approval of the Governor, it having been vetoed with other items in the general appropriation bill; and so far as the department has been able to learn, nothing has been done by the commission in this state, or by that of Delaware, to discharge the duties imposed by the act of 1889, and if the appropriation made by that act is not sufficient, it may be presumed that nothing will be done for the present.

STATE WEATHER SERVICE BUREAU.

This Bureau has been in operation since the passage of the act of May 13, 1887. All the duties incident to its management were conferred by the same act upon the Franklin Institute of Philadelphia; the Secretary of Internal Affairs having authority only to make requisition for the money appropriated for the maintenance of the bureau, and to pay the same over to such persons as might be designated by the institute. In the report for the year ending November 30, 1890, we expressed the opinion of the present administration of this department that it was the duty of the legislature either to divorce this department from further connection with the bureau, giving the whole matter into the hands of the Franklin Institute; or to constitute a weather service bureau in this department, under the control of the head of the department. The Governor in his message to the legislature of 1891 recommended that the control of the bureau should be given to this department, and accordingly a bill was introduced in the session of 1891 making the usual appropriation for the bureau, and providing that on and after the passage of the act the Secretary of Internal Affairs should assume control of the Bureau, and that the managing office of the bureau should be located at the seat of the state government. Unfortunately for the interests of the bureau, the bill received the veto of the Governor, and the appropriation, with the transfer of the same to this department, failed. During the past year the Franklin Institute has been able to secure reports from many of the observers throughout the commonwealth and their compiled data, together with the report of the representative of the United States weather service in charge of the bureau in the city of Philadelphia, are submitted herewith:

PHILADELPHIA, *February 3, 1892.*

To the HON. THOMAS J. STEWART,

Secretary of Internal Affairs, Harrisburg, Pa.:

SIR: I have the honor to submit the following report of the operations of the Pennsylvania state weather service for the year ending November 30, 1891.

I herein enclose the annual report of Mr. H. L. Ball, observer in charge, and also one copy of each of the twelve monthly bulletins of observation issued during the year. I also enclose annual summaries of observations taken at Girardville, by Mr. E. C. Wagner, and at Emporium, by Mr. T. B. Lloyd, voluntary observers at those stations.

These statements were prepared by these gentlemen of their own motion and printed at their own expense, and they exhibit their zeal and the interest they have in their work. I have reason to believe that the same spirit animates the whole corps, and it cannot be too highly appreciated.

I beg that these summaries may be considered part of this report.

Upon the failure last year of the bill making an appropriation for continuing the Pennsylvania state weather service, by reason of the objections of the Governor, it became necessary to review the situation.

The appropriation made in 1889 was not quite exhausted, and there was nothing in the appropriation act limiting the period for which the unexpended remainder of \$330.40 could be applied.

This view being concurred in by the Auditor General, it was resolved to continue the observations and to hold the service together for the two years ensuing, or for so long as we were able.

The value of the data obtained by observations is proportional to the time during which they are continued without interruption.

We had a corps of experienced observers throughout the state with the instruments belonging to the state in their hands, and all that was wanting to continue the observations was to supply stationery, to replace broken instruments, to pay the expenses attending the transfer of instruments in case of change of observers and other contingencies.

The more expensive parts of this service attending the proper publication of the data obtained by observations, the increase and improvement of the display service, the purchase of new instruments for new stations, and for instruments for the automatic record of the temperature and pressure of the atmosphere, are now necessarily abandoned for the time.

The publication of the data is now confined to a limited number of hand made copies made by, or under the direction of the United States observer in charge of the Pennsylvania state weather service, and distributed as detailed in his report herewith.

I take this opportunity of testifying to the cordial co-operation of the chief of the weather bureau in Washington, and to the hearty assistance received from the United States officers successively in charge at Philadelphia, namely, Mr. Townsend, who was promoted, Mr. Dey, who succeeded him temporarily, and Mr. H. L. Ball, the observer now in charge of the Pennsylvania state weather service.

It has been through their assiduity that the Pennsylvania state weather service has maintained a rank not behind the best of the state services.

I have the honor to be

Your obedient servant,

W. P. TATHAM,

Chairman Committee on Meteorology of the Franklin Institute.

PHILADELPHIA, *February 1, 1892.*

To the Chairman of the Meteorological Committee of the Franklin Institute:

SIR: I have the honor to submit the following report of the operations of the Pennsylvania state weather service during the year ending November 30, 1891:

Continuous observations have been made at sixty stations, on an average, during the entire year.

The voluntary observers continue to exhibit the same zeal and promptness that has characterized their work in former years. I would particularly invite your attention to the enclosed annual reports from two stations. These were printed at the expense of the observers, and deserves the highest commendation. I would suggest that they be embodied in the Secretary's annual report.

A few changes have been made in the number of stations. Some have been discontinued and others established in their places.

Several counties are yet without a station for recording meteorological data. The work of establishing new stations has been impeded because of the want of money for purchasing the necessary instruments. But it is hoped that with further aid from the state every county will have a meteorological station.

By reason of the failure of the appropriation to become a law, the printing of the monthly weather review was discontinued with the May number. Since then the monthly review has been issued by hand with a duplicating apparatus. This process is long and laborious and caused serious delay in the issue of the review.

Though wholly inadequate for the purposes, it was the only method available for issuing it.

Many letters from observers and others have been received expressing regret that the monthly review, in its former attractive and useful form, has been discontinued. The method of issuing the Review by hand necessitated cutting down the issue to the smallest possible number, and that the map showing the rainfall and the mean temperature at each station, be omitted. These monthly reviews have been sent regularly to all the voluntary observers of the service, to the chief of the weather bureau, the other state services, to the leading newspapers of the state, and to many scientific bodies and persons.

The Weekly Weather Crop Bulletin has been issued regularly, and has steadily grown in favor. These bulletins are a popular feature of the service, and can still be made of greater benefit to the people of the state.

The following letter received from the chief of the weather bureau is self-explanatory:

WEATHER CROP BULLETIN AND STATE WEATHER SERVICE DIVISION,
DEPARTMENT OF AGRICULTURE,
WEATHER BUREAU,
WASHINGTON CITY, *July 21, 1891.*

W. P. TATHAM, *Chairman Meteorological Committee Franklin Institute,
Philadelphia, Pa.:*

SIR: I have the honor to inform you that the appointment of Mr. T. F. Townsend, assistant director of the Pennsylvania state weather service, to the position of inspector in this bureau, has made it necessary to relieve him from state weather service duties. Mr. L. M. Dey, observer in charge of the Philadelphia station, has been selected to succeed Mr. Townsend, and it is believed that his long experience in the general station work of this bureau well qualifies him for that assignment.

He will at once consult with you relative to the work of the state service, and plans for extending the same in the interests of agriculture in the state, and in this connection I would earnestly solicit a continuance of the co-operation of the Franklin Institute in that work, assuring you that I will do all in my power towards increasing the usefulness of that service.

I am, very respectfully,

MARK W. HARRINGTON,
Chief of the Weather Bureau.

In compliance with the foregoing letter Mr. L. M. Dey assumed charge of the service. On December 14, 1891, the duties were transferred from Mr. L. M. Dey to Mr. H. L. Ball, observer weather bureau. Mr. Dey's duties as observer in charge of the Philadelphia station requiring his whole attention.

It is to be hoped that the next legislature will provide for the continuance of the state service.

In the meantime every effort will be made to continue the work and to extend its usefulness.

Very respectfully, your obedient servant,

H. L. BALL,
Observer Weather Bureau, Assistant in Charge.

MONTHLY WEATHER REVIEW FOR DECEMBER, 1890.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *December 31, 1890.*

Temperature.

The mean temperature of fifty-five stations for December, 1890, was $27^{\circ}.5$, which is over $2^{\circ}.0$ below the normal, and $11^{\circ}.8$ below the corresponding month of 1889.

The mean of the daily maxima and minima temperatures $35^{\circ}.0$ and $19^{\circ}.4$ give an average daily range of $15^{\circ}.6$, and a monthly mean of $27^{\circ}.2$.

Highest monthly mean, $33^{\circ}.1$ at Uniontown.

Lowest monthly mean, $20^{\circ}.6$ at Dyberry.

Highest temperature recorded during the month, $59^{\circ}.0$ on the 11th, at Charlesville.

Lowest temperature, minus $11^{\circ}.0$ on the 29th at Dyberry.

Greatest local monthly range, $25^{\circ}.2$ at Wilkes-Barre.

Least local monthly range, $11^{\circ}.1$ at Grampian Hills.

Greatest daily range, 40° at Somerset on the 20th and Honesdale on the 29th.

Least daily range, 1° at Catawissa and Petersburg on the 7th.

From January 1, 1890, to December 31, 1890, the excess in temperature at Philadelphia was 682° , at Erie 47° and at Pittsburgh 752° .

The coldest period of the month was on the 20th and 31st.

Barometer.

The mean pressure for the month, 30.09, is about .03 above the normal. At the United States signal service stations, the highest observed was 30.62 at Harrisburg and Philadelphia on the 20th, and the lowest 29.42 at Philadelphia on the 17th.

Precipitation.

The average precipitation 3.97 inches for the month, is an excess of 1.00 inch.

It was largely composed of snow.

The largest totals in inches were Blue Knob, 9.68; Eagles Mere, 7.02; Uniontown, 6.84; Indiana, 6.51; Phillipsburg, 5.94; Le Roy, 5.78; Holidaysburg, 5.71; Pittsburgh, 5.64; Somerset, 5.52 and Dyberry, 5.29.

The least were Erie, 1.72 ; New Castle, 2.13 ; Columbus, 2.16, and Philadelphia, 2.33.

The following are the largest totals of snow fall reported: Blue Knob, 96 inches ; Eagles Mere, 65 inches ; Somerset, 60 inches ; Le Roy, 57 inches ; Indiana, 50 inches, and Wellsboro', 49 inches.

The heaviest snows occurred on the 17th and 26th. A considerable quantity remained on the ground at the end of the month.

Wind and Weather.

The prevailing wind was from the northwest. The storms of the 17th and 26th were quite heavy. Considerable damage was done by wind, and travel in some parts of the state was delayed by snow drifts.

A large storage of ice was harvested during the month.

Average number: Rainy days, 12 ; clear days, 7 ; fair days, 8 ; cloudy days, 16.

Errata: Coopersburg mean temperature for October should be 51.3 instead of 53.3.

MONTHLY WEATHER REVIEW FOR JANUARY, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *January 31, 1891.*

Temperature.

The mean temperature of fifty-four stations for January, 1891, was $30^{\circ}.6$, which is over $4^{\circ}.0$ above the normal, and $7^{\circ}.1$ below the corresponding month of 1890

The mean of the daily maxima and minima temperatures $37^{\circ}.7$ and $23^{\circ}.3$ give an average daily range of $14^{\circ}.4$, and a monthly mean of $30^{\circ}.5$.

Highest monthly mean, $36^{\circ}.4$ at Philadelphia.

Lowest monthly mean, $23^{\circ}.8$ at Eagle's Mere.

Highest temperature recorded during the month, $64^{\circ}.0$ on the 29th at Uniontown.

Lowest temperature, minus $4^{\circ}.0$ on the 4th at Eagle's Mere and Lewisburg, on the 8th at Columbus, and on the 9th at Wellsboro'.

Greatest local monthly range, $20^{\circ}.2$ at Lancaster.

Least local monthly range, $10^{\circ}.1$ at Pittsburgh and Grampian Hills.

Greatest daily range, 43° at Smethport on the 25th.

Least daily range, 2° at Grampian Hills on the 11th.

From January 1, 1891, to January 31, 1891, the excess in temperature at Philadelphia was 122° , at Erie 137° , and at Pittsburgh 164° .

Barometer.

The mean pressure for the month, 30.06, is about .04 below the normal. At the United States signal service stations, the highest observed was 30.67, at Pittsburgh on the 8th, and the lowest, 29.22, at Philadelphia on the 12th.

Precipitation.

The average precipitation, 3.64 inches for the month, is nearly normal.

The largest totals in inches (including melted snow) were Girardville, 8.74; Coopersburg, 7.29, and Pottstown, 7.

The least were Greenville, 1.22; Chambersburg, 2.27; Altoona, 2.35, and Erie, 2.43.

The snowfall average for the state was about 9 inches.

The largest totals in inches were Somerset, 40.5; Blue Knob, 33.5; Dyberry, 20; Eagle's Mere, 19, and Charlesville, 15.

Only elevated districts report snow on the ground at the end of the month.

Wind and Weather.

The prevailing wind was from the northwest. The wind and snow storm of the 25th caused great damage to telegraph and telephone wires.

Average number: Rainy days, 12; clear days, 6; fair days, 10; cloudy days, 15.

MONTHLY WEATHER REVIEW FOR FEBRUARY, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *February, 28, 1891.*

Temperature.

The mean temperature of fifty-five stations for February, 1891, was $34^{\circ}.9$, which is nearly $6^{\circ}.0$ above the normal, and $2^{\circ}.2$ below the corresponding month of 1890.

The mean of the daily maxima and minima temperatures $42^{\circ}.8$ and $26^{\circ}.7$ give an average daily range of $16^{\circ}.1$, and a monthly mean of $34^{\circ}.7$.

Highest monthly mean, $40^{\circ}.5$ at Philadelphia.

Lowest monthly mean, $26^{\circ}.8$ at Eagle's Mere.

Highest temperature recorded during the month, 70° on the 18th at Philadelphia.

Lowest temperature, minus 7° on the 5th at Dyberry.

Greatest local monthly range, 63° at Somerset.

Least local monthly range, 46° at Kennett Square, Nisbet and Greenville.

Greatest daily range, 43° at Erie on the 5th.

Least daily range, 2° at State College and Grampian Hills on the 8th, Pottstown on the 7th, and Lock Haven on the 4th.

From January 1, 1891, to February 28, 1891, the excess in temperature at Philadelphia was 244° , at Erie 274° , and at Pittsburgh 313° .

The warmest days of the month were the 17th, 18th and 25th. The coldest, the 4th and 5th.

Barometer.

The mean pressure for the month, 30.07, is about .03 below the normal. At the United States signal service stations, the highest observed was 30.71, at Philadelphia, on the 15th, and the lowest, 29.25, at Erie, on the 25th.

Precipitation.

The average precipitation, 4.61 inches for the month, is slightly above the normal. The largest totals in inches (including melted snow) were Ligonier, 8.29; Johnstown, 7.99; Grampian Hills, 7.01; Columbus, 6.67; Meadville, 6.65; Uniontown, 6.64, and Pittsburgh, 6.09.

The least were Blue Knob, 2.13, Greenville, 2.50; Chambersburg, 2.54; Wysox, 2.71, and Drifton, 2.90.

The snowfall was light outside of the more elevated sections. Dyberry reports 17.5 inches; Blue Knob, 16.0; Nisbet, 15.0; Grampian Hills, 13.5; Eagle's Mere, 12.5; and Le Roy, 12.3. Several stations report snow on the ground at the end of the month. Heavy rains oc

curred on the 16th and 17th, which caused heavy freshets in many parts of the state.

Wind and Weather.

The prevailing wind was from the northwest.

Average number: Rainy days, 12; clear days, 6; fair days, 8; cloudy days, 14.

CORRECTION.—For January. Greatest monthly range, 55.0 at Somerset. Least local monthly range 34.0 at Chambersburg.

Miscellaneous Phenomona.

MEAN TEMPERATURE AND RAINFALL FOR FEBRUARY 1900

MONTHLY WEATHER REVIEW FOR MARCH, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *March 31, 1891.*

Temperature.

The mean temperature of fifty-three stations for March, 1891, was $34^{\circ}.1$, which is nearly $2^{\circ}.0$ below the normal, and $0^{\circ}.7$ above the corresponding month of 1890.

The mean of the daily maxima and minima temperatures $42^{\circ}.0$ and $25^{\circ}.7$ give an average daily range of $16^{\circ}.3$, and a monthly mean of $33^{\circ}.8$.

Highest monthly mean, $38^{\circ}.4$ at Philadelphia.

Lowest monthly mean, $29^{\circ}.1$ at Eagle's Mere.

Highest temperature recorded during the month, $60^{\circ}.0$ on the 18th at Pittsburgh and Uniontown.

Lowest temperature, minus 14° on the 2d at Dyberry and Columbus.

Greatest local monthly range, 70° at Smethport and Dyberry.

Least local monthly range, 43° , at Harrisburg.

Greatest daily range, 42° at Emporium on the 30th.

Least daily range, 1° at Pottstown on the 27th.

From January 1, 1891, to March 31, 1891, the excess in temperature at Philadelphia was 185° , at Erie 261° , and at Pittsburgh 258° .

The warmest days of the month were the 18th, 23d and 30th. The coldest were the 1st and 2d.

Barometer.

The mean pressure for the month, 30.10, is about .08 above the normal. At the United States signal service stations, the highest observed was 30.63, at Pittsburgh, on the 1st, and the lowest, 29.36, at Pittsburgh, on the 13th.

Precipitation.

The average precipitation, 5.10 inches for the month, is an excess of about 2.00 inches. The largest totals in inches (including melted snow) were Selinsgrove, 8.39; West Chester, 8.33; Kennett Square, 8.04; Charlesville, 7.89; McConnellsburg, 7.45, and Phoenixville, 7.42.

The least were Erie, 2.44, and Columbus, 2.72.

The largest monthly snowfall totals in inches were Charlesville, 39; Blue Knob, 34; Carlisle, 33, and Grampian Hills, 31.

The snow storm of the 27th was very severe in the Schuylkill and Lebanon valleys. Heavy drifts occurred and caused delay to traffic. The snow soon melted and very little was left on the ground at the end of the month.

Wind and Weather.

The prevailing wind was from the northeast. The month was cold, wet, and generally unpleasant and unhealthy. Vegetation is backward. The prospects for grain and fruit are favorable.

Average number: Rainy days, 14; clear days, 7; fair days, 8; cloudy days, 16.

MOON TEMPERATURE AND PAINTED FOR MARCH 1961

MONTHLY WEATHER REVIEW FOR APRIL, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *April 30, 1891.**Temperature.*

The mean temperature of fifty stations for April, 1891, was $49^{\circ}.8$, which is about 3° above the normal, and $1^{\circ}.1$ above the corresponding month of 1890.

The mean of the daily maxima and minima temperatures 61° and $38^{\circ}.5$ give an average daily range of $22^{\circ}.5$, and a monthly mean of $49^{\circ}.7$.

Highest monthly mean, $54^{\circ}.2$ at Philadelphia S. O.

Lowest monthly mean, $44^{\circ}.4$ at Dyberry.

Highest temperature recorded during the month, 87° on the 30th at Carlisle, and on the 27th at Lewisburg.

Lowest temperature $11^{\circ}.4$ on the 5th at Greenville.

Greatest local monthly range, 68° at Uniontown and Greenville.

Least local monthly range, 53° at Philadelphia.

Greatest daily range, 55° at Columbus on the 17th.

Least daily range, 1° at Le Roy on the 4th.

From January 1, 1891, to April 30, 1891, the excess in temperature at Philadelphia was 286° , at Erie 347° , and at Pittsburgh 332° .

The warmest days of the month were the 18th, 19th, 20th, 21st, 22d, 27th and 30th. The coldest were the 4th, 5th, 6th, 7th and 8th.

Barometer.

The mean pressure for the month, 30.02, is about .02 above the normal. At the United States signal service stations, the highest observed was 30.54, at Philadelphia, on the 10th, and the lowest, 29.48, at Philadelphia, on the 3d.

Precipitation.

The average precipitation, 2.08 inches for the month, is a deficiency of about three-quarters of an inch. The largest totals in inches (including melted snow) were Girardville, 3.54; Eagle's Mere, 3.15; Philadelphia, 2.82; Quakertown, 2.74, and Johnstown, 2.73.

The least were Wellsboro', 1.12; Somerset, 1.13; Carlisle, 1.18, and Pittsburgh, 1.18.

The largest monthly snowfall totals in inches were Blue Knob, 16; Dyberry, 10; Eagle's Mere, 5, and Le Roy, 5.

No snow reported on ground at the end of the month.

Wind and Weather.

The prevailing wind was from the northwest. The month was seasonable, with a slight excess of temperature, and a deficiency of rainfall. The prospects for grain, grass and fruit continue favorable.

Average number rainy days, 8; clear days, 13; fair days, 9; cloudy days, 8.

MONTHLY WEATHER REVIEW FOR MAY, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, May 31, 1891.*Temperature.*

The mean temperature of fifty-two stations for May, 1891, was $57^{\circ}.5$, which is about $2^{\circ}.5$ below the normal, and $1^{\circ}.3$ below the corresponding month of 1890.

The mean of the daily maxima and minima temperatures $69^{\circ}.2$ and $45^{\circ}.4$ give an average daily range of $23^{\circ}.8$, and a monthly mean of $57^{\circ}.3$.

Highest monthly mean, $61^{\circ}.0$ at Philadelphia S. O.

Lowest monthly mean, $51^{\circ}.0$ at Wellsboro'.

Highest temperature recorded during the month, $93^{\circ}.0$ on the 10th at Carlisle and McConnellsburg.

Lowest temperature $20^{\circ}.0$ on the 4th at Dyberry.

Greatest local monthly range, 64° at Hollidaysburg and Dyberry.

Least local monthly range, 48° at Erie S. O.

Greatest daily range, 53° at Hollidaysburg on the 10th.

Least daily range, 2° at Wellsboro' on the 18th.

From January 1, 1891, to May 31, 1891, the excess in temperature at Philadelphia was 258° , at Erie 250° , and at Pittsburgh 222° .

The warmest days of the month were the 10th and 11th. The coldest were the 4th, 5th, 6th, 7th and 17th.

Barometer.

The mean pressure for the month, 30.07, is about .07 above the normal. At the United States signal service stations, the highest observed was 30.42, at Philadelphia, on the 20th, and the lowest 29.76 at Philadelphia, on the 16th.

Precipitation.

The average precipitation, 2.12 inches for the month, is a deficiency of about one and a quarter inches. The largest totals in inches (including melted snow) were Ligonier, 4.41, and Somerset, 4.16.

The least were Blue Knob, 0.31; Wysox, 0.49, and Lewisburg, 0.67.

The largest monthly snowfall totals in inches were Columbus, 2.00; Wellsboro', 1.50, and Meadville, 1.50.

MONTHLY WEATHER REVIEW FOR JUNE, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *June 30, 1891.*

Temperature.

The mean temperature of fifty stations for June, 1891, was $68^{\circ}.7$, which is about normal, and $1^{\circ}.6$ below the corresponding month of last year.

The mean of the daily maxima and minima temperatures, $80^{\circ}.1$ and $56^{\circ}.3$ gives an average daily range of $23^{\circ}.8$, and a monthly mean of $68^{\circ}.2$.

Highest monthly mean, $72^{\circ}.8$ at New Castle.

Lowest monthly mean, $63^{\circ}.7$ at Dyberry.

Highest temperature recorded during the month, 100° on the 7th, at Hamburg.

Lowest temperature, 30° on the 7th, at Selinsgrove.

Greatest local monthly range, $69^{\circ}.0$ at Selinsgrove.

Least local monthly range, 34° at Kennett Square.

Greatest daily range, 52° at Selinsgrove on the 3d.

Least daily range, 3° at Dyberry and South Eaton on the 21st.

From January 1, 1891, to June 30, 1891, the excess in temperature at Philadelphia was 270° , at Erie, 254° , and at Pittsburgh, 274° .

The warmest days of the month were the 15th and 16th. The coldest were the 7th, 8th and 9th.

Barometer.

The mean pressure for the month, 29.97, is about .03 below the normal.

At the United States weather bureau stations, the highest observed was 30.26, at Harrisburg on the 8th, and the lowest 29.60 at Erie on the 18th.

Precipitation.

The average rainfall, 4.50 for the month, is an excess of about one-half inch.

The largest totals in inches were Swarthmore, 9.30, and Johnstown, 9.22.

The least were Erie, 1.22; Honesdale, 1.45 and Dyberry, 1.85.

Wind and Weather.

MONTHLY WEATHER REVIEW FOR JULY, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, July 31, 1891.

Temperature.

The mean temperature of forty-six stations for July, 1891, was $67^{\circ}.9$, which is about $4^{\circ}.4$ below the normal, and $2^{\circ}.9$ below the corresponding month in 1890.

The mean of the daily maximum and minimum temperatures, $78^{\circ}.6$ and $56^{\circ}.6$, gives an average daily range of $22^{\circ}.0$ and a monthly mean of $67^{\circ}.8$.

Highest monthly mean, $72^{\circ}.4$ at Philadelphia (Centennial Avenue).

Lowest monthly mean, $63^{\circ}.0$ at Dyberry.

Highest temperature recorded during the month, 97° on the 14th at Huntingdon and on the 15th at Wilkes-Barre.

Lowest temperature, 34° on the 10th at Wellsboro' and on the 27th at Columbus.

Greatest local monthly range, 53° at Huntingdon.

Least local monthly range, 32° at Swarthmore.

Greatest daily range, 48° at Hollidaysburg on the 13th.

Least daily range, 3° at Philadelphia on the 8th.

From January 1, 1891, to July 31, 1891, the excess in temperature at Philadelphia was 143° , at Erie 74° , and at Pittsburgh 116° .

Barometer.

The mean pressure for the month, 30.03, is about .07 above the normal. At the United States weather bureau stations the highest observed was 30.36 at Philadelphia on the 22d, and the lowest 29.73 at Harrisburg on the 3d.

Precipitation.

The average rainfall, 6.32 for the month, is an excess of about two inches.

The fall was particularly excessive in the southeastern portion of the state.

The largest monthly totals in inches were Coatesville, 11.61; York, 10.77; Kennett Square, 10.21, and West Chester, 10.11.

The least were Wysox, 2.63, and Erie, 2.66.

Wind and Weather.

The prevailing direction of the wind was from the west. The month was characterized by extremes of heat and cold.

MONTHLY WEATHER REVIEW FOR SEPTEMBER, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *September 30, 1891.*

Temperature.

The mean temperature of forty-five stations for September, 1891, was $66^{\circ}.4$, which is about $5^{\circ}.4$ above the normal, and $4^{\circ}.4$ above the corresponding month of 1890.

The mean of the daily maximum and minimum temperatures, $78^{\circ}.4$ and $54^{\circ}.8$, gives an average daily range of $23^{\circ}.6$ and a monthly mean of $66^{\circ}.6$.

Highest monthly mean, $71^{\circ}.6$ at Philadelphia.

Lowest monthly mean, $60^{\circ}.8$ at Wellsboro', Dyberry and Smethport.

Highest temperature recorded during the month, 94° on the 26th at Coatesville and on the 17th at Somerset.

Lowest temperature, 32° on the 30th at Wellsboro' and Columbus.

Greatest local monthly range, 61° at Somerset.

Least local monthly range, 37° at Erie.

Greatest daily range, 52° at Selinsgrove on the 18th.

Least daily range, 4° at Erie on the 6th and at Dyberry on the 5th.

From January 1, 1891, to September 30, 1891, the excess in temperature at Philadelphia was 303° , at Erie 158° , and at Pittsburgh, 203° .

A series of dry and cloudless days occurred from the 9th to the 28th inclusive; the last eleven days of the series being phenomenally warm. Cool nights, however, gave relief from the oppressive heat of the days. This has been the hottest September on record excepting September, 1881.

The coldest days were the 9th, 10th and 30th.

Frosts were reported on the 9th, 10th, 11th and 30th in the high districts.

Barometer.

The mean pressure for the month, 30.154, is about .07 inch above the normal. At the United States weather bureau stations the highest observed was 30.43 at Harrisburg on the 10th, and the lowest, 29.88, at Philadelphia on the 17th.

Precipitation.

The average rainfall, 2.39 inches for the month, is a deficiency of 1.18 inches.

The largest totals were Kennett Square, 5.00; Charlesville, 4.55; West Chester, 4.30.

The least were Carlisle, 1.05; Lebanon, 1.07; Emporium, 1.17; Quakertown, 1.17.

Wind and Weather.

The prevailing wind was from the southwest. The weather was very favorable for harvesting and curing crops and for fall seeding.

Average number: Rainy days, 7; clear days, 17; fair, 8; cloudy, 5.

Miscellaneous Phenomena.

MONTHLY WEATHER REVIEW FOR OCTOBER, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *October 31, 1891.*

Temperature.

The mean temperature of forty-six stations for October, 1891, was $54^{\circ}.4$, which is about $1^{\circ}.5$ below the normal, and $0^{\circ}.5$ below the corresponding month of 1890.

The mean of the daily maximum and minimum temperature, $61^{\circ}.2$ and $40^{\circ}.1$, gives an average daily range of $21^{\circ}.1$ and a monthly mean of $50^{\circ}.7$.

Highest monthly mean, $55^{\circ}.7$ at Philadelphia (Centennial avenue).

Lowest monthly mean, $44^{\circ}.1$ at Dyberry.

Highest temperature recorded during the month, 91° on the 3d at Carlisle.

Lowest temperature, 15° on the 29th at Dyberry.

Greatest local monthly range, 69° at Coatesville and Dyberry.

Least local monthly range, 47° at Altoona.

Greatest daily range, 49° at Hollidaysburg on the 2d, and at Columbus on the 13th.

Least daily range, 1° at Columbus on the 27th.

From January 1, 1891, to October 31, 1891, the excess in temperature at Philadelphia was 240° , at Erie, 137° , and at Pittsburgh, 145° .

The warmest days of the month were the 3d and 4th. The coldest were the 28th and 29th.

Barometer.

The mean pressure for the month, 30.11, is about .04 inch above the normal. At the United States weather bureau stations, the highest observed was 30.69 at Harrisburg on the 12th, and the lowest, 29.68 at Philadelphia on the 5th.

Precipitation.

The average rainfall, 3.06 inches for the month, is a deficiency of one-fourth of an inch.

The largest monthly totals were, Selinsgrove, 4.46; Wysox, 4.43; State College, 4.38.

The least were, New Castle, 0.84; Ligonier, 0.88; Pittsburgh, 1.53.

Flurries of snow occurred in several places on the 27th. During October, 1890, over 5.00 inches of snow was recorded at some stations. This October the amount was inappreciable.

Wind and Weather.

The prevailing direction of the wind was from the northwest.

Average number: Rainy days, 8; clear days, 11; fair days, 9; cloudy days, 11.

MONTHLY WEATHER REVIEW FOR NOVEMBER, 1891.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *November 30, 1891.*

Temperature.

The mean temperature for November, 1891, was $39^{\circ}.6$, which is about the normal, and $1^{\circ}.9$ below the corresponding month of last year.

The mean of the daily maxima and minima temperatures, $49^{\circ}.1$ and $30^{\circ}.3$, gives an average daily range of $18^{\circ}.8$, and a monthly mean of $39^{\circ}.7$.

Highest monthly mean, $44^{\circ}.9$, at Altoona.

Lowest monthly mean, $33^{\circ}.1$, at Blue Knob.

Highest temperature recorded during the month, $76^{\circ}.0$, on the 9th, at Pittsburgh.

Lowest temperature recorded during the month, $6^{\circ}.0$, on the 30th, at Dyberry.

Greatest local monthly range, $66^{\circ}.0$, at Ligonier.

Least local monthly range, $37^{\circ}.0$, at Selinsgrove.

Greatest daily range, $46^{\circ}.0$, at Coatesville, on the 9th; Lebanon, on the 22d and Dyberry on the 8th.

Least daily range, $0^{\circ}.0$, at Columbus, on the 17th.

From January 1, 1891, to November 30, 1891, the excess in temperature at Philadelphia was 180° , at Erie, 73° and at Pittsburgh, 79° .

Barometer.

The mean pressure for the month, 30.15, is about .10 inch above the normal.

At the United States weather bureau stations, the highest observed was 30.84, at Philadelphia, on the 16th, and the lowest 29.82, at Erie, on the 23d.

Precipitation.

The average rainfall, 2.65 for the month, is a deficiency of nearly one inch.

The largest monthly totals in inches were, Columbus, 5.70; Girardville, 5.12 and Drifton, 4.08.

The least were, Lancaster, 1.09; Reading, 1.38; Westtown, 1.41.

The heaviest rainfall occurred on the 11th, 17th and 23d.

The snowfall was light and at most stations too small for measurement.

The largest totals were Blue Knob, 11.0 inches; Grampian Hills, 6.0 inches; Wellsboro', 5.5 inches and New Castle, 4.0 inches.

Wind and Weather.

The prevailing direction of the wind was from the northwest.

VITAL STATISTICS.

The Bureau of Vital Statistics was established under the provisions of the act of June 3, 1885, but no machinery was provided by the act to enforce its provisions. No means were devised by which the authorities in the different counties could be required to make the returns contemplated by the act. In our report for the year ending November 30, 1890, we clearly indicated that the act, so far as the filing of statistics was concerned, was substantially a dead letter. During the last year very few returns have been received from any of the county officers, and they alone are of but little value as statistics. They have been filed away and possibly when the legislature, if it should do so, makes provision for the enforcement of the law, may be of some use. Certainly no good to the people of the commonwealth can come from this act in its present condition. If the facilities were provided for its thorough enforcement, there is no doubt that statistics might be obtained which would be of the greatest value and interest to the public.

BUREAU OF ASSESSMENTS.

The department has this year put forth extraordinary efforts to procure full assessment returns that the people of the state might have placed before them all possible information on the question of taxation, as they are perhaps more interested in this branch of economy than in any other public question. Its great importance indeed makes us more deeply regret that the means provided by the state legislature for collecting the statistics are so limited. Notwithstanding this, we believe that the assessment reports, made to this department by the various counties of the state, will be fraught with interest to the tax-payer, and that the more careful student of this question will find in them many gratifying evidences of improvement.

Reports were received this year from every county in the state, although, unfortunately, from some counties the reports are not complete, a few having failed entirely to report upon certain questions. Some county officers were exceedingly tardy in filing their reports; the one county whose officers were most conspicuous in this tardiness was Carbon county, who were many months behind in the performance of this duty. Many letters and telegrams sent to them, finally brought the report, but in a condition that rendered it valueless. This is not as it should be. It is not only unfair to the department but, as we shall see further on, it places the county in an embarrassing position when contrasted with the complete reports from the other counties. The county commissioners of each county should take special pride in making their report complete in every particular. It is but fair, however, and is indeed gratifying to state in this connection, that the reports are more complete than last year, and perhaps more so than for any previous year.

The reports from each county have been printed in full and will be found elsewhere in this volume, under the division of assessment reports.

They give the following information:

1. The number of taxables.
2. The number of acres of cleared land.
3. The number of acres of timbered land.
4. Value of all real estate as returned by the assessor.
5. Value of all real estate exempt from taxation.
6. Value of all real estate taxable.
7. Number and value of horses, mares, geldings and mules over the age of four years.
8. Number and value of neat cattle over the age of four years.

9. Value of salaries and emoluments of office, offices, posts of profit, professions, trades and occupations.

10. Aggregate value of all property taxable for county purposes.

11. Aggregate amount of county tax assessed.

12. Amount of money at interest including mortgages, judgments, bonds, notes, stocks, etc.

13. Value of stages, omnibuses, hacks, cabs, etc.

14. Aggregate value of property taxable for state purposes at the rate of three mills on the dollar, including money at interest, stages, omnibuses, hacks, cabs, etc.

15. Aggregate amount of state tax assessed.

16. Debt of each county.

The aim of the bureau of assessments has been to procure, through a system of blanks sent each year to the county commissioners, the information indicated in the above outline; and to carefully examine and verify the statistical returns made, and prepare them for publication in the annual report of the Department of Internal Affairs.

Immediately following these tabular reports from the different counties, will be found a comparative and consolidated statement, made up from the yearly reports furnished by the various counties for the years 1890 and 1891. In this statement will be found the totals as reported by each county on the subjects indicated above, and also the aggregate of the entire state compiled from the totals of each county. An examination of these, we trust, will interest the taxpayer, or the more careful student of political economy.

The county reports generally show a healthy increase, as to amounts and values, in all parts of the state, over those for the year 1890, and yet there are some discrepancies which it would be difficult to account for otherwise than on the supposition of imperfect and incomplete reports. For illustration of this, take the returns of the number of acres of cleared and timbered lands. Last year the cleared land was reported at 13,885,471 acres, showing a decrease of more than a million of acres from the return of a year previous. This year the cleared land is reported at 12,324,742 acres, showing a decrease of 1,560,729 acres in one year. The timbered land as reported, has apparently increased 194,584 acres: that is from 7,467,965 acres in 1890, to 7,662,549 acres in 1891. The total of both cleared and timbered land reported this year is 19,987,291 acres, while a year ago it was reported at 21,353,436 acres. The decrease in cleared land would appear still greater were it not for the fact that Monroe and Venango counties made no reports on this subject last year, while this year the same counties have together reported 334,458 acres of cleared land and 364,725 acres of timbered land. But for this fact there would appear a decrease in the number of acres of both cleared and timbered lands in this year's returns. A complete assessment throughout the state would, of course, show an increase of

cleared lands, with a corresponding decrease in timbered lands. The whole number of acres of cleared and timbered lands in Pennsylvania, by actual survey is 28,808,442 acres. The entire number of acres reported as assessed this year is 19,987,291. But this does not fairly represent the real discrepancy in the return, since Allegheny, Franklin, Greene, Huntingdon, Luzerne, Lycoming, McKean and Philadelphia counties, with a total area by actual measurement, of 4,032,523 acres, made no returns whatever under this heading this year, and, except Greene county, none last year. It is quite correct, however, to say that the remaining fifty-nine counties, with a real acreage of 24,775,919 acres, have returned 19,987,291 acres as the total number of acres assessed. This shows a discrepancy of 4,788,628 acres. It would seem, therefore, that only about eighty per cent. of the actual amount of acreage is returned to the county commissioners as taxable for county purposes. This defect should be remedied. It is doubtless to be expected that a land owner, in reporting his acreage, will not overstate the amount, but that there should appear a discrepancy of twenty per cent. of the land of the entire state, is not as it should be.

The total number of taxables in the state this year is reported at 1,532,895, showing an increase of 87,720 over last year. Huntingdon county made no return of the number of taxables while the counties of Dauphin, Erie and Perry report the same number as in the previous year. The counties of Bedford, Clarion, Lancaster, McKean, Montgomery, Sullivan, Susquehanna, Tioga, Warren, Wyoming and York have each reported a slight decrease in the number of taxables.

The total value of all real estate assessed has increased from \$2,184,022,986, in 1890, to \$2,256,151,310, in 1891, showing a gain of \$72,128,324. The total value of real estate taxable for county purposes has also increased \$56,765,242, it being reported at \$2,092,336,883.

But in the amount of property exempt from taxation there is a great decrease. In 1890, the property exempt from taxation was \$200,527,596, while in 1891 it is \$153,814,427, showing a decrease of \$46,713,169. But the counties of Allegheny and Beaver, last year reporting about forty millions of property exempt from taxation, have made no report whatever on this question this year. Deducting for this, there is still a deficit of some six millions.

The following tables will show the decrease in the number and increase in the value of horses and cattle in the several counties in the state. It will be remembered, however, that these animals are not taxed until they are over four years old.

HORSES, MULES, ETC.

1890, No. 513,180,	value \$32,272,513,	average value \$62.90.
1891, No. 506,999,	value \$32,774,460,	average value \$64.65.

CATTLE.

1890, No. 665,753,	value \$12,334,564,	average value \$18.53.
1891, No. 654,338,	value \$12,423,333,	average value \$18.96.

It will be seen from the above that while horses and cattle have decreased in number, they have increased in value. We do not believe there are a less number of horses and cattle in this state now than there were for the year ending November 30, 1890. In some localities it would appear that horses and cattle rarely ever live to be more than four years of age, which is the taxable age. The figures referred to, in our opinion, cannot be relied upon as exhibiting the correct number of these animals, but rather are evidences of the lack of uniformity and of the existence of a reckless discharge of duty in making assessments throughout the commonwealth.

In the total value of salaries, emoluments of office, etc., last year there was an increase of \$2,256,326, while this year the increase is \$2,480,788, the amount returned being \$79,204,079.

The aggregate value of property taxable for county purposes as returned last year was \$2,058,899,709, while this year it is \$2,216,903,213, showing an increase of \$158,003,504.

A glance at the returns from the various counties is sufficient to show that there is a vast difference in the basis of valuation adopted by the assessors and commissioners. It is the sworn duty of the triennial assessors, when estimating the value of property for the purpose of levying a county tax, to "assess and value every separate lot, or piece, or tract of land, with the improvements thereon, at the rate or price which they, after due examination and consideration, believe the same would sell for, if sold singly and separately, at a *bona fide* sale, after full public notice." There is no means by which this bureau can determine the actual value of property, but an examination of the comparative statement is sufficient to show that there is a great undervaluation in many of the counties.

The returns for each succeeding year show a large increase in the amount of money at interest. This is doubtless largely the result of an act of assembly of 1885, which provided a more efficient means for compelling a true return of money at interest, upon which a state tax of three mills on the dollar is payable. Last year the amount reported was \$512,049,908; this year it has increased to \$579,036,227. The large counties of course show the greatest increase in the amount returned, but the counties which according to their size, valuation and population, show the greatest percentage of gain are the following:

Allegheny, 1890,	\$39,109,113 00
1891,	52,655,278 00
Increase,	<u>\$13,546,165 00</u>
Cameron, 1890,	\$126,897 00
1891,	186,028 00
Increase,	<u>\$59,131 00</u>

Elk, 1890,	\$371,846 00
1891,	613,666 00
Increase,	<u>\$241,820 00</u>
Fayette, 1890,	\$3,986,803 00
1891,	4,506,350 00
Increase,	<u>\$519,547 00</u>
Juniata, 1890,	\$490,507 00
1891,	681,900 00
Increase,	<u>\$191,393 00</u>

The aggregate value of stages, omnibuses, etc., has increased about thirty thousand dollars in the year, while the aggregate value of all property taxable for state purposes at the rate of three mills on the dollar has increased from \$571,599,715 last year to \$582,185,370 for 1891. The aggregate amount of state tax assessed for the year 1891 is \$1,748,448.66, showing an increase of \$31,679.33. The counties showing the greatest percentage of increase over the amount returned last year are Allegheny, Blair, Butler, Cameron, Juniata and McKean.

The last item shown in the consolidated statement is the amount of the county debt. The increase shown in the aggregate debt of the various counties of the state is due to the fact that many of the counties failed to report last year, while this year all except Huntingdon have made reports. The counties of Bradford, Erie, Franklin, Fulton, Greene, Lawrence, Lehigh, Montour, Northumberland, Pike, Sullivan, Susquehanna, Venango, Washington and Wyoming having reported themselves out of debt. The entire debt of the several counties as reported is \$84,773,192.42, of which Philadelphia reports \$56,623,559.47, leaving \$28,149,632.95 distributed among the remaining fifty-one counties. It will be unfair to Philadelphia to regard her county debt as fifty-six millions unless it be remembered that the city and county are coextensive, and that the above figures represent both the city and county debt.

It may be assumed that the next returns will show a considerable change in the items reported as state revenues under the act of 1891, which increases the tax on money at interest from three to four mills on the dollar, besides making many other changes in rates on other subjects of taxation. The new revenue act will be found in Pamphlet Laws 1891, page 229.

TAXES.

The act of May 19, 1889, provided for the collection of statistics which would indicate the total amount of taxes collected for the support of the poor, construction and repairs of roads and bridges; also the amount collected on personal property, occupations and for licenses; the amount collected on the real estate of railway corporations and the real estate of corporations other than railways.

As appears from the report for the year ending November 30, 1890, the collection of this data was to be made at the expense of the commonwealth; but no appropriation was made by the legislature of 1889 to defray the expenses, and the department was therefore compelled to rely upon the public spirit of the commissioners of the different counties in the enforcement of the provisions of the act referred to. In circular letters sent to the commissioners, they were informed that no appropriation had been made, but that the legislature of 1891 would be asked to make one to cover the expenses that might be incurred in the discharge of the duties imposed by the act. Most of the counties complied with the request of the department and made partial or complete returns, relying upon the succeeding legislature to make an appropriation to reimburse them for their expense. During the session of 1891, therefore, a communication was addressed to the chairman of the House Appropriation Committee, Hon. James S. Fruit, in which attention was called to the duty of making provision for the payment of the expenses incurred under the act of 1889. The communication reads as follows:

DEPARTMENT OF INTERNAL AFFAIRS,
COMMONWEALTH OF PENNSYLVANIA,
HARRISBURG, *April 2, 1891.*

HON. JAMES S. FRUIT,

Chairman Committee on Appropriations, Harrisburg, Pa:

DEAR SIR: The act approved May 9, 1889 (copy "A" herewith), imposed upon the boards of county commissioners the duty of collecting, compiling and transmitting to the Department of Internal Affairs, upon blank forms furnished under the act by the department, information as to taxes collected for the support of the poor, construction and repairs of roads and bridges, the amount collected on personal property, occupations and licenses, on real estate of railway corporations, and on real estate of corporations other than railways; and it further provided that the work should be done at the expense of the state.

The legislature of 1889 failed to make an appropriation to cover the

expense incident to making such reports; but the department nevertheless proceeded to the work imposed upon it and issued a circular to the county commissioners (copy "B" herewith). In answer to this circular reports were received from the following forty-six counties: Adams, Allegheny, Armstrong, Bedford, Berks, Blair, Bucks, Centre, Chester, Clearfield, Columbia, Crawford, Dauphin, Delaware, Elk, Erie, Forest, Franklin, Fulton, Greene, Huntingdon, Juniata, Lackawanna, Lawrence, Lebanon, Lehigh, Mifflin, Montgomery, Montour, Northampton, Northumberland, Perry, Philadelphia, Pike, Potter, Schuylkill, Somerset, Susquehanna, Union, Venango, Warren, Washington, Wayne, Westmoreland, Wyoming and York.

We also received bills from four counties for work done, to-wit: Clearfield, \$50; Chester, \$38; Columbia, \$33.25; Delaware, \$70.

We issued a circular (copy "C" herewith), relative to the returns for 1890, and received reports from the following forty-three counties:

Adams, Allegheny, Bedford, Blair, Bucks, Cambria, Cameron, Centre, Chester, Clearfield, Columbia, Dauphin, Delaware, Erie, Elk, Franklin, Forest, Fulton, Greene, Huntingdon, Juniata, Lancaster, Lawrence, Lebanon, Lehigh, Luzerne, Mifflin, Montgomery, Montour, Northampton, Northumberland, Perry, Philadelphia, Pike, Potter, Somerset, Sullivan, Susquehanna, Washington, Wayne, Wyoming, Westmoreland and York.

The commissioners of the various counties were informed of the fact that no appropriation had been made, and they were asked to do the work imposed, relying on the future for payment; and while no bills were rendered, excepting one from Columbia county for \$39.56, considerable correspondence was had relative to remuneration for the work done, and in most cases the department, while not in any way committing itself or the state to payment, yet did assure those having done the work that the attention of the legislature would be called thereto, and this we now do, most respectfully; and we further submit that an appropriation should be made to cover the work already done, which would be for the forty-six counties in 1889 and forty-three counties in 1890, as well as the work to be done in the years 1891 and 1892. We still further beg leave to suggest that an appropriation of \$5,000 for each year will be necessary, basing the calculation upon an average of \$75 per county per year.

The bills submitted with this communication are, as will be noticed, for the smaller counties.

We beg also to call attention to the fact that should an appropriation be made, the act of May 9, 1889, contains no provision as to how or by whom the amount justly due shall be determined, or in what manner payment shall be made.

Very respectfully yours,

THOS. J. STEWART,
Secretary of Internal Affairs.

Pursuant to the request of the department the House Committee on Appropriations had the following items placed in the general appropriation act for 1891 (see Pamphlet Laws, pps. 278, 279, 1891):

SECTION 26. For the payment of the services rendered and the expenses incurred in the collection and compilation of the tax statistics as required by the act of May ninth, one thousand eight hundred and eighty-nine (Pamphlet Laws, page one hundred and fifty-seven), the following amounts, or so much thereof as may be necessary: For the forty-six counties making report for the year one thousand eight hundred and eighty-nine, the sum of three thousand four hundred and fifty dollars; for the forty-three counties making report for the year one thousand eight hundred and ninety, the sum of three thousand two hundred and twenty-five dollars, and for each of the years one thousand eight hundred and ninety-one and one thousand eight hundred and ninety-two, the sum of five thousand dollars. The warrants for the appropriation hereby made to be drawn by the Auditor General to the order of the Secretary of Internal Affairs, who shall require properly certified vouchers to be made and filed in the Auditor General's department.

It will be seen from this that an appropriation was made of \$3,450.00 to cover the expense incurred by the forty-six counties reporting in 1889, and \$3,225.00 to cover the expense incurred by the forty-three counties reporting in 1890, and also of \$5,000.00 for each of the years 1891 and 1892. These clauses received the unanimous support of both the House and Senate, but the appropriations for the years 1889 and 1890 were disapproved by the Governor, and the department was therefore unable to pay the expenses incurred in 1889. The sums appropriated for the years 1891 and 1892 were, however, approved by the Governor, and as a result of being furnished with the means necessary to execute the work, fairly complete returns have been received from all but eight counties. The counties whose officers have failed to comply with the law are Berks, Carbon, Luzerne, McKean, Mifflin, Schuylkill, Snyder and Tioga. In some cases, especially that of McKean, the commissioners claim that it was impossible to gather the information called for in the blanks. It is probably no easy task to collect the data, but it certainly is within the possibilities that there should be from every county in the state a complete return showing the amount of all taxes collected for the different purposes indicated in the act aforesaid. In the fifty-nine counties reporting there have been collected for the support of the poor, \$1,939,993.50; for the construction and repairs of streets, roads and bridges, \$6,721,566.01; for the support of public schools (which, of course, does not include the amount appropriated by the state to the several districts), \$9,898,937.76. The returns indicate that but \$1,943,889.02 have been collected on personal property; and \$836,992.24 represents the amount collected on occupations. The amount received for licenses of all kinds, which includes liquor licenses, was \$2,569,042.11. The railway

corporations of the state appear to have paid in the way of local taxes \$591,964.63, which represents the amount paid on real estate owned by them which is not essential for their use in the operation of their lines. All real estate that is necessary for the successful carrying on of their business, such as stations, offices, storage depots, tracks, etc., is exempt from local taxation, the tax being paid directly into the state treasury by the way of tax on capital stock, dividends, etc. The corporations of the state, other than railways, have paid \$824,364.21, as local taxes. The total amount of all taxes (which does not include any paid to the government of the United States), but those paid for local purposes, the maintenance of township, borough and city governments, including the tax paid to the commonwealth, was \$37,371,866.01. Had complete returns been received from all counties the total tax paid for all purposes would probably have amounted to not far from \$42,000,000.00, and there would have been an increase in all the other items referred to.

The department will exert every possible effort to procure complete returns from all the counties during the coming year. In the county of Philadelphia the amounts reported by the board of revision of taxes represent the money appropriated to the several purposes indicated by the councils of the city, as taxes in Philadelphia are not levied for school, poor or street purposes, but the levy is made under one rate and the councils then appropriate the money to the support of the poor, maintenance of the streets, and to other purposes, as in their judgment may seem proper.

The detailed reports from the counties will be found in Part II of this report.

REPORT OF THE BUREAU OF INDUSTRIAL STATISTICS.

The report on the condition of the labor and of the industries of the commonwealth is published in a separate volume, designated as Part III of the reports of the Department of Internal Affairs. It contains data relative to wages, labor and the social condition of the laboring classes; also statistics regarding manufacturing, mining and other industries of the commonwealth.

BUREAU OF RAILWAYS, CANALS, TELE- GRAPHS AND TELEPHONES.

Annual reports are published by this bureau designated Part IV of the reports of the Department of Internal Affairs. These reports contain data relative to the capitalization, construction, operation and maintenance of railways whose lines are in whole or in part within the state. All companies whose lines are so situated are required to make detailed reports to the Department of Internal Affairs, and failure to do so renders them liable to a fine of five thousand dollars.

REPORTS OF THE INSPECTORS OF MINES.

These reports are published in a separate volume, being designated as Part V of the reports of the Department of Internal Affairs.

They contain data from the several anthracite and bituminous mining districts of the commonwealth relative to the amount of coal mined, the ventilation of mines, the means adopted for the safety of miners, with full returns of accidents and their causes.

Full description is also given of every coal mine in operation in the state.

Under the law regulating the publication of public documents, no provision is made by which the department has any of the reports of the inspectors of mines for distribution.

CERTIFICATES FOR MINE FOREMEN AND ASSISTANT MINE FOREMEN.

The legislature during the session of 1885 passed a law to regulate mining in the anthracite coal regions of the state, and among other things the act provided for the issuance of certificates of qualification to mine foremen by the Secretary of Internal Affairs, to all persons who should be certified to have passed a satisfactory examination by the

boards of examiners. It further provided that from and after the passage of the act, no person should be permitted to act as mine foreman unless he was registered as a holder of a certificate under the act. Pursuant to the provisions of this law, examinations were made and the names of those who had been successful were certified to the Secretary of Internal Affairs, who granted them certificates, receiving therefor the fee of three dollars in each case, which, under the act of 1885, aforesaid, was turned into the state treasury as a portion of the revenue of the commonwealth. The law was very generally observed and enforced, and, so far as we know, no one assumed to discharge the duty of mine foreman unless he had first secured a certificate from the Secretary of Internal Affairs. During the session of 1891 the miners and other persons interested in the mining business prepared a new bill, in most cases identical with that passed in 1885, providing for some changes, among which was the appointment of assistant mine foremen. It was no doubt intended that this act should be supplementary to the one of 1885, but the form adopted seems to have prevented it being considered either as supplemental or amendatory to that act, for it did not in any way refer to it. Section one, article eight, of the act of 1891 (P. L. page 190), reads as follows:

“It shall not be lawful, neither shall it be permitted for any person or persons to act as mine foreman, or assistant mine foreman, of any coal mine or colliery, unless they are registered as a holder of a certificate of qualification or service under this act.”

The second section of article eight of said act provides how certificates of mine foremen and assistant mine foremen are to be granted by the Secretary of Internal Affairs. Immediately after this act of 1891 had become a law, the question arose as to whether a mine foreman who had a certificate under the act of 1885 could continue to act in the capacity of mine foreman without having been examined and obtained a certificate under the first section of article eight of the act of 1891. Some of the inspectors having discovered that there was a question of uncertainty consulted with the Secretary of Internal Affairs, and at his suggestion addressed a communication to the Attorney General, referring briefly to the act of 1885, and also that of 1891, and asking his opinion as to the right of a mine foreman to continue to act without having been examined, and without having obtained a certificate under the latter act. We give below the letter to the Attorney General, and his reply:

HARRISBURG, *June 19, 1891.*

HON. W. U. HENSEL,

Attorney General, Harrisburg, Pa:

SIR: The undersigned committee representing the mine inspectors of the anthracite coal region, respectfully request your opinion on the points hereafter submitted in relation to the act, “to provide for the health and safety of persons employed in and about the anthracite coal

mines of Pennsylvania, and for the protection and preservation of property connected therewith," approved June 2, 1891.

1. Section three, article eighth, in regard to the appointment and qualification of mine foremen and assistant mine foremen, provides as follows:

"For the purpose of examination of candidates for such certificates a board of examiners shall be appointed in each of the inspection districts provided for by this act. The said board shall consist of the district inspector of mines, two practical miners and one owner, operator or superintendent of a mine. The said inspector shall act *ex-officio* and the said engineer and owner, operator or superintendent shall be appointed in like manner and at the same time as the boards of examiners for candidates for mine inspectorship under this act are now appointed. The said board shall act as such for the period of one year from the date of their appointment. Meetings of the board may be held at any time and they may make such rules and conduct such examinations as in their judgment may seem proper for the purpose of such examination. The said board shall report their action to the Secretary of Internal Affairs and at least three of the members thereof shall certify to the qualifications of each candidate who has passed such examination. The traveling expenses of the members of such board to and from their place of meeting, together with the sum of five dollars per day each to the said two practical miners and owner, operator or superintendent, members of each board, for each day they are actually engaged therein, not exceeding ten days in all during the year, shall be paid by the commonwealth on an order of the Auditor General drawn on the State Treasurer upon the certificate of the mine inspector, member of such board."

It will be observed that this section provides that the board of examiners for mine foremen and assistant mine foremen shall be appointed at the same time as boards of examiners for the examination of mine inspectors, to-wit, the first term of court in each year, and that the board so appointed is constituted differently from that existing under the third section of article eight, of the act of 1885 (Pamphlet Laws, page 231).

Question: Does the act of 1891 terminate or abolish the board in existence appointed under the act of 1885; if so, can the court *now* appoint, before the first term of court in the year 1892, a new board under the act of 1891?

2. Section three, article eight, of the act of 1891, also provides that before the Secretary of Internal Affairs shall grant to an individual a certificate as mine foreman or assistant mine foreman, the applicant shall produce a certificate of qualification signed by at least three members of the board of examiners, while the act of 1885 authorizes the granting of certificates as mine foreman when but two of the examining board certify to the qualifications of the applicant (see section 3, article 8, page 381).

Section one, article eight, of the act of 1891, says: "It shall not be lawful, neither shall it be permitted, for any person or persons to act as mine

foreman or assistant mine foreman of any coal mines or colliery, unless they are registered as a holder of a certificate of qualification or service *under this act.*"

Question: Has any mine foreman who has a certificate under the act of 1885 a right to act as such mine foreman? has any person *now* any right to act as mine foreman, without qualifying under the act of 1891?

In your reply to these inquiries will you also send to the Secretary of Internal Affairs a copy of your opinion for his guidance under the provisions of the act referred to?

Very respectfully,

G. M. WILLIAMS,
Mine Inspector, Wilkes-Barre, Pa.
SAMUEL GAY,
Inspector of Mines, Pottsville, Pa.

OFFICE OF THE ATTORNEY GENERAL,
HARRISBURG, PA., *June 22, 1891.*

Mr. G. M. WILLIAMS,
Mine Inspector, Wilkes-Barre, Pa. :

Mr. SAMUEL GAY,
Inspector of Mines, Pottsville, Pa. :

GENTLEMEN: Your letter of June 19, 1891, requesting the opinion of this office on section three, article eight, of the act of assembly "to provide for the health and safety of persons employed in and about the anthracite coal mines of Pennsylvania, and for the protection and preservation of property connected therewith," approved June 2, 1891, in regard to the appointment and qualification of mine foremen and assistant mine foremen, has been received.

Under the terms of this act, and especially of section three, of article eight, the appointment of the board, which consists of the district inspector of mines, two practical miners and one owner, operator or superintendent of a mine, or, in fact, of any officers mentioned in this section or in the act, is to be made at the first term of court in each year, and, as this time has already passed in 1891, there could not be an appointment of these officers under this act until the first term of court in 1892.

It will be observed that this act repeals all parts of the act of 1885 inconsistent or in conflict with the provisions of this act. As the act of 1885 relates to the same subject matter, it is repealed by the act of 1891. Under the act of 1885, the appointment of the board of examiners, mine foremen, assistant mine foremen, etc., as mentioned in your letter, were made for one year, it is my opinion these officers will continue and perform the duties under this act (which are essentially similar to those required by the act of 1885) during the time for which they were appointed.

The act of 1891 does not seem to have provided for the appointment of its officers for the year 1891, and therefore is not inconsistent with

the continuance of the officers appointed or now holding office under the act of 1885. Under the act of 1891 no appointments can be made before the first term of court in the year 1892.

It would be advisable for the officials holding certificates under the act of 1885, to qualify under the act of 1891.

Very truly yours,

JAMES A. STRANAHAN,
Deputy Attorney General.

It will be seen from the opinion of the Attorney General that it became necessary for all the persons who are filling the position of mine foreman to be re-examined and re-certified to the Secretary of Internal Affairs, that they might obtain new certificates under the recent act. This seemed a great hardship to those who had already passed the examination and paid the fee prescribed by the act of 1885; but the provisions of the act of 1891 were so clear and specific that the Attorney General could come to no other conclusion than that they must have new certificates. The department had prepared at once another blank form, and as the reports of examination came in, new certificates were issued. A very large amount of work devolved upon the department in consequence of having to prepare and record the certificates. About 1,200 have been issued, and there are many mine foremen who had certificates under the act of 1885 who have not yet applied for them, though it may be that many of these persons are not at present discharging the duties of a mine foreman. The act made another change as to the districts in the anthracite region. The counties of Lackawanna, Susquehanna and Wayne, under the act of 1885, constituted the First district, and the territory which was formerly embraced in the First district was by said act changed into two districts, designated the First and Second. No provision was made by the act of 1891 for the immediate appointment of new examiners in these districts, and under the law there could be no appointment until January, 1892. Therefore, the examiners who had formerly acted in the First district made the examinations for both the new districts, certifying the names of the successful applicants to the department, in order that certificates might be issued. As the act of 1891 seems to have gone into effect immediately upon its approval by the Governor, it was the opinion of the Secretary of Internal Affairs that the old board could not legally make examinations in both districts, and withheld the granting of the certificates. On November 19, 1891, after having many letters regarding the delay in issuing the certificates to those who had passed the examination in the two districts, the following communication was addressed to the Attorney General for his opinion as to the duty of the department in the matter:

DEPARTMENT OF INTERNAL AFFAIRS,
COMMONWEALTH OF PENNSYLVANIA,
HARRISBURG, *November 19, 1891.*

HON. W. U. HENSEL, *Attorney General, Harrisburg, Pa. :*

DEAR SIR: Under the act of 1885 (P. L. pp. 210 and 231), the First anthracite inspection district was composed of the counties of Lackawanna, Susquehanna and Wayne, the inspectors of which made the examinations for mine foremen, as required by law, up to the time of the passage of the act of 1891 (P. L. p. 176), which changed the number of districts in the anthracite coal region, and the territory which was formerly embraced in the First district was by said act formed into two districts, designated the First and Second.

It appears that no new board of examiners has been appointed under said act for the additional district created, and that the old board which formerly discharged the duties incident to the office in what was the First district, has been making the examinations for mine foremen and assistant mine foremen, under the new law, in both the First and Second districts as now constituted. The board has made reports to this department of its examinations and certified to the qualifications of those who have passed the examination.

The question now arises whether the department shall recognize the authority of the old board as extending to both the First and Second districts, in the matter of issuing certificates of qualification as mine foremen and assistant mine foremen for the districts named.

Will you be kind enough to give us your opinion, in order that the department may act according to your interpretation of the law?

Very truly yours,

THOS. J. STEWART

Secretary of Internal Affairs.

A verbal opinion was given immediately after the communication referred to was considered by the Attorney General, which indicated that the department should not grant certificates until the applicants were certified to by the new boards, which could not be appointed until January, 1892. Several further communications having been received by the department complaining of the delay, in granting certificates, the opinion of the Attorney General in writing was requested, in order that the department might comply with requests for copies of the same. The following communication was addressed to him December 29, 1891, and it, with his reply, is given below :

DEPARTMENT OF INTERNAL AFFAIRS,
COMMONWEALTH OF PENNSYLVANIA,
HARRISBURG, *December 29, 1891.*

HON. W. U. HENSEL, *Attorney General, Harrisburg, Pa. :*

DEAR SIR: Referring to our letter of November 19th relative to the issuance of certificates of qualification to mine foremen and assistant

mine foremen in the First and Second districts as constituted under the act of 1891, we beg to ask that you will give us at once a written opinion in the matter.

Many requests are being made for certificates, and we wish to be able to refer to a written opinion as our authority for not issuing them.

Be kind enough to make reply not later than Thursday.

Very truly yours,

ISAAC B. BROWN,
Deputy Secretary.

OFFICE OF THE ATTORNEY GENERAL, PENNSYLVANIA,

HARRISBURG, *December 30, 1891.*

HON. THOMAS J. STEWART,

Secretary of Internal Affairs:

DEAR SIR: The letter of Mr. Brown, deputy secretary, dated December 29, 1891, asking a reply to your letter of November 19, 1891, relative to the issuance of certificates of qualification to mine foremen and assistant mine foremen, in the First and Second districts, as constituted under the act of 1891, has been received.

The reason your former letter was not answered was because I called at your office and stated that, as the certificates could not issue for a longer period than the first term of court in 1892, it would be better, if practicable, to let the issuance of certificates pass until that time. The act of 1891 (P. L. p. 177), section four, states that the board of examiners shall be appointed at the first term of court in each year, to hold their places during the year. Under the act of 1885, this office held that the board of examiners held their office and performed the duties of making examinations under the said act, which were similar to those required by the act of 1891, during the balance of the year 1891, but if certificates are issued to the mine foremen and assistant mine foremen for the First and Second districts, which comprise the same territory as the First district under the act of 1885, they should be issued for no longer period than until the first term of court in 1892, to be held in the counties authorized to make the appointment under the act of 1891.

Very truly yours,

JAS. A. STRANAHAN,
Deputy Attorney General.

The Secretary of Internal Affairs, in view of the opinion of the Attorney General, which seemed to be in accord with the act of 1891, declined to issue certificates for the First and Second anthracite districts until the applicants should be properly certified to by the new boards

APPENDIX.

BOARD OF PROPERTY.

A Board of Property, consisting of the Attorney General, Secretary of the Commonwealth and Secretary of Internal Affairs, is authorized by law.

Its powers are to "hear and determine in all cases of controversy on caveats, in all matters of difficulty or irregularity, touching escheats, warrants on escheats, warrants to agree, rights of pre-emption, promises, imperfect titles, or otherwise, which may arise in transacting the business of the said Land Office."

The present Board consists of

WILLIAM U. HENSEL, *Attorney General.*

WILLIAM F. HARRITY, *Secretary of the Commonwealth.*

THOMAS J. STEWART, *Secretary of Internal Affairs.*

Stated meetings of the Board will be held on the Wednesday following the fourth Tuesday of each alternate month of the year 1892, to wit: January 27, March 23, May 25, July 27, September 28 and November 23.

Regulations.

I. A caveat may be entered against the granting of a warrant, acceptance of a survey or granting of a patent. It must be in writing and addressed to the Secretary of Internal Affairs. A particular form is not required; but the application, survey or other office right against which it is entered, together with the reason for filing the same, should be distinctly stated.

II. A caveat entered against the granting of a warrant, on any application on file bars the issuing of a warrant, unless, after hearing upon a citation, the Board should dismiss the same.

III. No caveat, note on survey, nor writing in the nature of a caveat, shall continue to bar the issuing of a patent to the person or persons against whom such caveat may be entered during a longer period than two years, unless the parties interested in the land shall within the term mentioned take out a citation thereon, in order to bring such dispute to a decision and prosecute the same to effect.

IV. A citation will be issued on a pending caveat on the application of any party in interest. Thirty days' notice must be given to the opposite party of the time at which the case will be heard by the Board,

and either party desiring to take the depositions of witnesses to be read at the hearing is required to give the other ten days' notice of the time and place for taking such depositions.

V. The party who enters a caveat becomes plaintiff in the issue joined, and at the hearing shall open the case and may make the concluding argument.

VI. A petition for the rehearing of a case that has been heard and decided will not be considered unless the party presenting the same shall furnish evidence that the opposite party has had at least ten days' notice of the intention to present said petition.

VII. A petition for an order of re-survey must recite the name of the warrantee and date of warrant upon which the former survey was made, and state the reasons for such re-surveys.

VIII. Depositions of witnesses submitted to the Board become a part of the record and cannot be withdrawn.

IX. Citations must be returned to the Department of Internal Affairs on or before the days fixed therein for the hearing of the cases in which they are issued. All acceptances of notices and agreements to continue cases must be in writing.

X. Parties will be heard in person, or may be represented by counsel, as they may elect.

XI. The fees to be charged for the use of the commonwealth in business relating to the Board are as follows:

Entering caveat,	\$1 00
Issuing citation,	1 00
Recording application for re-survey,	1 00
Order of resurvey,	1 00
Copy of action or determination of Board,	1 00

XII. All communications for the Board should be addressed to the Secretary of Internal Affairs.

WARRANTS AND SURVEYS.

A warrant or order of survey authorizes the survey of vacant lands only, as they alone belong to the commonwealth to grant; but whether the lands applied for are vacant or not, the land officers do not undertake to examine, and in most instances do not possess the means of ascertaining. Of this the applicant must judge for himself. If he know them to be appropriated by prior right, it is against conscience to take out a warrant for them or to have them surveyed as vacant. But he may assert the invalidity of a former grant and insist on a survey. In that case the deputy surveyor ought, if it be known to him, to note it in his books and return of survey.

Returns of Surveys.—Having finished the survey and plotted it, the surveyor ought to return it to the office of the Secretary of Internal Affairs. This is an important part of his duty. Many regulations and

laws have from time to time required it, and from its omission frequent disputes have occurred. The deputy surveyer, however, is not obliged to return the survey until his fees and expenses are paid; and if the failure to return is occasioned by the neglect or refusal of the party to defray them, any loss thereby sustained is imputable to him, and not to the officer. The regulation of the proprietaries and the acts of assembly concur in directing the return to be made on paying for the survey.

* * * * * If the party pay or tender the fees, it is the duty of the surveyer to return the survey in a convenient time, and the neglect or fraud of the surveyer will not affect his rights. But it lies on the party to show that the want of the return was not occasioned by any fault or neglect of his own; and, if there is nothing to show that the surveying fees were paid, the inference is that they were not paid. The deputy, being a sworn officer, is, *prima facie*, presumed to have done his duty.

PATENTS.

A patent is a deed from the commonwealth, under its great seal, conveying to the grantee all its rights in the land, describing it by metes and bounds, and it passes, as respects the commonwealth, the complete legal title; all the preparatory measures of warrant, application, survey and acceptance being merged in the patent. The granting of a patent is *prima facie* evidence that all the previous requisites have been complied with. Before a patent can be issued the purchase money due, and the patent fee, must be paid; and the land is thenceforth discharged from the lien which till then existed. Generally, the rights of the grantee are concluded by the lines and boundaries described in the patent, though perhaps in a special case there might be an exception.

Third persons claiming by warrant, application, settlement or otherwise may show that the patent was wrongfully issued to the patentee; or, rather, that he is trustee for him who has the right, the material consideration being, not who has the patent, but to whom it ought to have been granted—for the land officers, in issuing the patent, act merely in a ministerial capacity, and cannot change the rules of law or rights of parties. And even though he who has the patent sell to a *bona fide* purchaser without notice, the vendee is in no better situation. His claim under the patent may be contested by one having a better right by settlement, warrant or location. These titles are not equities within the ordinary rule of being unavailing against a purchaser of the legal title. A patent founded on a fraudulent survey, or obtained by misrepresentation and deceit, is void against third persons affected by it.

A patent, however, has always been received in evidence in the first instance, to show that the legal title was out of the commonwealth. The question whether it is good is a subsequent one.—*Sergeant's Land Laws*, p. 155.

The following regulations, relative to issuing patents, are published for the information and guidance of owners of unpatented lands:

1. The patent must issue to the actual owner of the land, or party holding title under the warrantee, or to the executors, trustees, or heirs and legal representatives of the person in whom title was vested at death, or to the guardians of minor children of the deceased.

2. Warrantees who remain the owners of the land warranted and surveyed to them can obtain patents in their own names (if no caveat remains undetermined), without furnishing any brief or statement of title, upon payment of back purchase money, interest and fees.

3. Executors, trustees and guardians representing the warrantee, or his heirs, who apply for patents, must produce evidence of their appointment as such.

4. When the land has passed out of the ownership of the original warrantee, or party who took out the office right, the applicant for patent will be required to furnish evidence of ownership.

5. The present owner of a part of a tract of land surveyed in pursuance of any given warrant, desiring to have a patent in his own name, can obtain it by having the county surveyor make return of survey of such part. In making the survey, the county surveyor must, besides giving the courses and distances and quantity of acres, in the particular part, indicate the residue of the original tract by dotted lines. The applicant will only be required to pay his proportion of the whole amount due on the tract, with fees. Evidence of ownership must accompany application.

6. When an unpatented original tract has been sold and sub-divided the several present owners may unite in an application and statement of title for a patent, and, upon payment of amount due, with patent and other fees, a patent will issue to them, the said applicants, their heirs and assigns, according to their respective rights and interests, without setting forth therein the particular interest of each.

7. In cases where it is difficult to submit the evidence of title required by this department, in order to obtain a patent, any one or more of the owners of the unpatented tract can, through this department, discharge the lien against said tract by the payment of the purchase money, interest and fees, shown to be due by the land lien docket, and the interest since accrued, and a patent can at any time afterward be issued to those entitled to it, upon proof of ownership.

8. The accounts in the lien dockets are calculated to June 1, 1868. If to the amount due, as shown in its proper column, there be added the interest accruing from June 1, 1868, to the date of forwarding the docket to the prothonotary, at the rate given in the column of rate per cent. of interest, and on this sum interest be calculated at the rate of six per cent. from the time of forwarding the docket until the date of the application for patent, it will give the amount required to procure a patent.

(See 2d sec. of the act of the 20th of May, 1864, printed on a subsequent page.) But interest is not charged on patent or other fees. (See act of the 5th of May, 1871.)

A statement of the amount due on any particular tract or tracts, or any other information in relation thereto, will be promptly furnished on application to this department.

Persons sending money to the Department of Internal Affairs for payment of arrears on unpatented lands and for records, etc., should send by registered letter, postal order, or express. Drafts, checks, or post-office money orders must be made payable to the order of the Secretary of Internal Affairs.

MISCELLANEOUS.

The indorsement, similar to this, "returned, etc., February 22, 1815," frequently found on copies of warrants and surveys, does not mean the date at which the return or survey was received at this office, but the date at which the Surveyor General made a return of the tract to the Secretary of the Land Office for patenting. And when such indorsement is found on the back of a copy of a warrant or survey, even at the date at which the office of the Secretary of the Land Office was discontinued, it is an evidence, in perhaps ninety-nine cases out of one hundred, that the tract is patented. Some exceptions have been found. Why the custom of marking the warrants and surveys thus, was introduced when a tract was patented, after the office of the Secretary of the Land Office was abolished, on the 10th of May, 1844, is not apparent. This custom was discontinued on the 1st of January, 1868, and the indorsement, "patented to ————, 18—," was substituted.

A mistaken idea, prevalent with many people not-familiar with the Land Office, is that the department has connected drafts, showing the location of every tract of land surveyed in the several counties, and that, therefore, whatever of vacant land there may be in the state can be readily found at this office, and that information can, without difficulty, be given as to the adjoining surveys of any named tract, without advising the department of the names and dates of the warrants upon which such surveys were made. Had the lands of the commonwealth been first surveyed and afterwards sold, this idea would have been correct, but the very reverse was the fact, for the lands were sold and warrants for subsequent surveys issued. And, because of his policy, the department has only single and unconnected copies of the surveys. Unless a given survey calls for warrantee adjoiners, it would be a work altogether out of proportion to the fees allowed to undertake to search out all the warrants and surveys, perhaps for a whole county, in order to find the adjoining tracts, or search for a supposed vacant piece of land; but the task is comparatively easy when the party seeking the inform-

ation learns, as he readily can from the county surveyer, or persons in the neighborhood, the names of all the surrounding warrantees and dates of warrants, and communicates that data to his department.

It will be observed, from the foregoing, that in communication with the department, it is of the first importance to give the name of the warrantee and date of warrant of the survey or patent about which inquiry is made; but when the date of warrant cannot be given, the party asking for official copies or information should give quantity of acres, location, the warrantee name of adjoining tract, or tracts, and any other data in his possession that will aid in searching for the tract.

Frequently applications for warrants for land, made out in due form, are sent to the department unaccompanied by the purchase money and warrant fee, and as warrants cannot issue until the proper amount of money has been paid into the state treasury, and, until all the requirements of the law have been complied with, the applications thus made gain no priority over others that may be made for the same lands.

The law does not contemplate that credit should be given on account of fees for searches and official copies; and, therefore, to save correspondence and insure more speedy attention, the proper amount of fees should be sent with each order. If too much is forwarded, the surplus will be promptly returned, with the official papers asked for.

INSTRUCTIONS TO COUNTY SURVEYORS.

I. Execution of Warrants.

1. You shall faithfully execute every warrant that may be directed to you from this department, to the best of your skill, knowledge and understanding, *according to the express words* and order of such warrant, and not otherwise.*

2. You shall not make use of any chain-carriers but such as are of good character, who shall take a solemn oath (which you are authorized by law to administer) justly and exactly to execute their trust, without favor, partiality or affection.†

3. You will not, under any circumstances, execute new warrants upon lands heretofore surveyed on old warrants or orders, but report, as nearly as possible, the circumstances relating to the same. And before you make return of any lands surveyed by you on new warrants, endeavor to be satisfied that no warrant of an earlier date has been issued for the same land; and on your return, certify whether the lands have been improved, and, if so, for how many years.‡

4. You must not execute a warrant on any other land than that which it particularly describes; and in order that your return of survey may show that the warrant has been properly executed, it will be necessary for you to be particularly observant of the *adjoiners mentioned in the warrant*;

* ¶ 1 of instructions of the Commissioners of Property to Isaac Taylor, proprietary's surveyor for the county of Chester, signed by said Taylor, on the 28th of eleventh month, 1701.

‡ Adopted February, 1796.

and where there has been any change in them between the issuing and executing of the warrant, it must be noted in your return of survey.*

5. You will be particularly careful in executing warrants granted after the 1st day of June, 1814, and not founded on actual settlement, not to interfere with the rights of settlers; and in all cases where an actual resident settlement is included, note on your return whether it was commenced prior or subsequent to the 28th day of March, 1814.†

6. You shall not make return of any survey but such as has actually been made on the ground; and you shall take care that all outlines and boundaries shall be fairly and visibly marked before you quit the field.‡

11. Returns of Surveys.

7. You are to make a separate return of survey on each warrant or order issued from this department within six months after the receipt thereof.§

8. Each return of survey must conform with the following requirements, to wit:

I. The paper or parchment used must be of the dimensions of at least eight by twelve inches.

II. It must contain a protracted figure of the land, exactly performed, with the field work annexed.§

III. All streams of water, roads, railroads, canals, township or county lines intersecting or crossing the lines of the survey must be distinctly and visibly marked on the draft at the very place of intersection or crossing, and the distance from the corners expressed in figures on the lines crossed.||

IV. The lines of so much of the adjacent surveys as may serve to show their connection with the survey returned must be represented on the draft by dotted lines.**

V. When a survey is bounded by a creek or river, the bearings and distances of the several meanderings must be given.††

VI. Note, whenever they can be obtained, the *warrantee* names of adjoining tracts, as well as the names of the present owners thereof should be given.

VII. The certificate on each return of survey must be made in accordance with the proper form, as printed in the annual reports of the department.

* Adopted in 1813.

†† From ¶ 3 of instructions issued in 1796.

9. When you return a survey of a part of a tract of land for patenting, you must specify the name of the warrantee, the date of the warrant and the number of acres contained in the whole tract, and on the draft represent the residue of the tract by dotted lines.* But you are, in no event, to make and return to this department a "resurvey" of a tract, either to include more land or to exclude any part, or in anywise alter the original boundary lines thereof, *unless authorized to do so by an order of the Board of Property*. When an order of resurvey has been issued, and sent to you for execution, you are strictly to follow the directions therein contained.

10. You may make official returns of surveys actually made by your predecessors, after having satisfied yourself of their correctness, and that they have been located according to the calls of the warrants.†

11. Surveys intended to be returned to this department must be made or approved by you.

12. You may survey and return any surplus not exceeding one hundred acres above the quantity mentioned in the warrant, location, or order of survey. The purchase money for all the surplus land surveyed on warrants must be first paid into the state treasury before the return of survey can be accepted in this department, of which you will give notice to the owner or owners of such warrant, and always send the money to pay the excess with the return of the survey.‡

13. All returns of survey, in order to conform with the files of the department, should be folded as follows: Double the sheet by bringing the upper and lower edges of the sheet evenly together, then fold in each side so as to make a form about two and seven-eighth inches wide, and in length from six to seven inches, according to the size of the sheet. The back of the return should be left blank.

14. With each return of survey send a copy of the tabling and calculation thereof on a separate piece of paper.§

15. All returns to this department must be under cover, directed to the Secretary of Internal Affairs, with your name subscribed on the back of the paper or envelope inclosing the same.||

III. Office Duties.

16. You will keep your office open for the reception of all warrants directed to you, which shall be entered in a book kept for that purpose, designating therein the name of the warrantee, quantity of land granted, date of warrant, and the day when you received it. Also, in another book, you will keep fair and regular entries, in order of time, of all sur-

veys and resurveys made by you in pursuance of any warrant or order of survey which you may receive, with a draft or plot thereof, and a copy of the field notes. And the Secretary of Internal Affairs shall, from time to time, have free access to said books of entry and to all other papers relating to your office, which books and papers shall be delivered by you to your successor.*

17. Under the provisions of the constitution of 1873, you are required to keep your office at the county town; but if you desire letters sent to any other address, advise this department.

18. Before you can enter upon the duties of your office, you must comply with the seventh section of the act of assembly passed the 9th day of April, 1850, which requires you to take an oath or affirmation, which must be administered in the open court of quarter sessions;† to send a copy of said oath, duly certified, to this department; and to have your bond approved by the court, and recorded in the office for recording deeds in the proper county, and to forward the same to the Secretary of the Commonwealth, with one dollar, the fee for filing in his office.

* ¶ VIII of the instructions of 1765.

† Constitution, Art. VII, Sec. 1, requires oath of all county officers to be filed in the office of the prothonotary of the proper county.

RECENT LEGISLATION RELATING TO THE LAND OFFICE.

COUNTY SURVEYORS.

Their Duties.

Under the proprietary government, deputy surveyors were appointed by the Proprietary, the Commissioners of Property, or the Surveyor General, for certain districts, and given authority to execute warrants or orders, by making surveys and returns thereof to the Land Office. The duties of these deputies were defined by letters of instructions, issued from time to time. Those dated the 28th of eleventh month, 1701, revised and enlarged in 1765, contain such directions as were then deemed necessary for the information and guidance of the deputies, and formed the basis of those now in force. The act of assembly of the 9th of April, 1781, establishing the Land Office under the commonwealth, authorized the Surveyor General to appoint a deputy or deputies in any county of the state, who should have power to make and return into the Land Office surveys of land only in the county for which such deputy or deputies shall be appointed; and the act of 1st April, 1784, by virtue of which the Land Office was opened on the 1st day of July following for the sale of the vacant lands of the commonwealth, directed that its several officers should transact the business of the Land Office, agreeably to the former customs and usages thereof. By subsequent legislation, the duties of the deputies were more clearly defined. The act of 9th April, 1850 [P. L. 434], authorized the voters of each county, at the following general election, and every third year thereafter, to elect one competent person, a practical surveyor, to act as county surveyor for the proper county for the term of three years, who is required to do and perform all the duties which then pertained to the respective deputies of the Surveyor General.

Term of Office.

[Constitution, Art. XIV.]

SECTION 1. County officers shall consist of sheriffs, coroners, prothonotaries, registers of wills, recorders of deeds, commissioners, treasurers, surveyors, auditors or controllers, clerks of the courts, district attorneys and such others as may, from time to time, be established by law. * *

SECTION 2. County officers shall be elected at the general elections,
12 A.-9-91.

and shall hold their offices for the term of three years, beginning on the first Monday of January next after their election, and until their successors shall be duly qualified; all vacancies not otherwise provided for shall be filled in such manner as may be provided by law.

To Keep Office in the County Town.

SECTION 4. Prothonotaries, clerks of the courts, recorders of deeds, registers of wills, county surveyors and sheriffs shall keep their offices, in the county town in which they respectively shall be officers.

To Hold Office until Successor is Qualified.

[Act of 17th April, 1869. P. L. 67.]

A supplement to an act entitled "An act relative to the election of Auditor General, Surveyor General, and county surveyors by the people," approved April ninth, one thousand eight hundred and fifty.

SECTION 1. That the persons now or hereafter holding the office of county surveyor shall continue to hold and exercise all the duties appertaining to said office until their successors are duly qualified according to the provisions of the act to which this is a supplement.

Fees.

[Act of 13th April, 1859. P. L. 606.]

An act relating to the fees of county surveyors.

SECTION 1. That the several county surveyors of this commonwealth shall be and are hereby authorized to charge and receive for the services hereinafter mentioned the following fees, and no more, to wit:

For receiving warrant and giving receipt for the same, if required,	\$0 25
For executing warrant, not exceeding one hundred acres,	4 50
For each additional one hundred acres on same warrant,	75
For return of survey to Surveyor General's office [Department of Internal Affairs],	1 00
For draft thereof to the warrantee,	25
For executing order of resurvey and making return thereof, same fees as for like service on original survey.	
For certifying survey made by deputy,	50
For each mile necessarily traveled in going to and returning from land,	10

EXCESS.

[Act of 21st April, 1860. P. L. 87.]

An act relative to returns of surveyors to the office of the Surveyor General.

SECTION 1. That so much of the second section of the act approved the sixth day of April, Anno Domini one thousand eight hundred and thirty, as restricts returns of surveys on warrants thereafter to be issued

to an amount not greater than ten per centum beyond the number of acres for which the warrant issued, be and the same is hereby repealed: *Provided*, That any excess which may be returned under the provisions of prior laws shall be paid at the time of making such return of survey to the Surveyor General, otherwise the same shall not be accepted.

[Any surplus not exceeding one hundred acres may now be returned on any warrant or order of survey, provided that the money for such surplus accompanies the return. See paragraph 12 of "Instructions to County Surveyors.]"

FEES.

[Act 15th of April, 1873. P. L. 75.]

An act relating to the fees of the Surveyor General.

SECTION 1. That from and after the passage of this act the fees to be collected by the Surveyor General for the use of the commonwealth shall be as follows, namely:

For warrant, including return thereof,	\$5 00
Patent for five acres or less,	5 00
Patent for more than five acres,	10 00

19. Surveys to be made of parts of original tract.
20. Suits to be by *scire facias*. Service.

[Act of 20th May, 1864. P. L. 914.]

An act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of locations or other office titles.

1. SECTION I. That it shall be the duty of the Surveyor General to make out a list of all lands held by location, or any other office right, issued from the Land Department of this commonwealth, of every kind and description, upon which no patents have issued, designating the county in which such lands are situated, with such other descriptions of

the same as the records of his office will enable him to give, including the names in which such locations or other office rights are entered, and surveys have been returned; and on the list being completed, or any part thereof, be transmitted to the prothonotary of the county in which such lands are situated.

2. SECTION II. That it shall be the duty of the Surveyor General to calculate the amount of purchase money, interest and fees, due on each unpatented tract; and after the descriptions of said tracts have been transmitted to the prothonotaries of the respective counties, and entered, as hereinafter provided, the amounts so found to be due, together with five dollars for the labor and costs of making out and filing, shall form an aggregate sum which shall be entered in a lien docket to be provided and kept for that purpose, and said sum shall bear interest at the rate of six per cent.

3. SECTION III. That it shall be the duty of the prothonotary of each county, upon receiving any descriptive list as aforesaid, to provide a suitable docket, with a proper index, for the purpose of recording all such descriptions of unpatented lands, and shall accurately record the same and index the name of the original warrantee or actual original settler, as the case may be, and each subsequent owner so far as ascertained, and preserve the same among the records of the county: *Provided*, That when any party in interest, by petition under oath or affirmation, setting out the facts in the case, as in affidavit of defense, shall represent to the president judge of the court of common pleas of the county, in which any tract or piece of land, against which the entry directed in the foregoing section has been made, or the principal part thereof, may lie, that said tract has been patented, either in the name against which the entry is made, or in any other name, the said judge shall, after such notice to the Surveyor General as he shall deem proper, proceed to hear the case of the petitioner; and the said judge shall, thereupon, make such decree in the premises, either by directing the said entry to be struck from the record, or such other order as to said entry, and also as to costs, as may seem equitable.

4. SECTION IV. That it shall be the duty of the prothonotary of each county, upon receiving from the Surveyor General any such list or calculation of amounts due the commonwealth for purchase money, interest, and fees, to provide a suitable docket with index, in the form of the lien dockets now in use in the several counties of this commonwealth, to be styled "Lien Docket of Unpatented Lands," and enter therein the amount so found to be due, which sum shall remain a lien upon such tract or tracts, until paid; and that a fee of fifty cents be paid to the prothonotary for each description so entered, and that he be allowed the same fees on the liens entered, as are now allowed on judgments entered by warrant of attorney in the court of common pleas.

5. SECTION V. That it shall be the duty of the prothonotary, upon re-

ceiving any such descriptive list, to cause the same to be published in two newspapers in the county where such lands are located, for three successive weeks, for which publication he shall be authorized to pay fifty cents for each tract, and charge the same as costs on the lien docket, and retain his fees and costs out of any moneys, in his hands, due the commonwealth.

6. SECTION VI. The amounts which may be due to the commonwealth on the lands mentioned in the first section of this act, may be paid in accordance with the existing laws in relation to such lands, if the same be paid prior to the first day of November next: *Provided*, That any costs, which may have accrued in accordance with the provisions of this act, shall also be paid, and that the act to graduate lands on which money is due and unpaid to the Commonwealth of Pennsylvania, approved April tenth, Anno Domini one thousand eight hundred and thirty-five, be revived and continued in force, until the said first day of November next; and any survey and appraisements, made since the first day of August last, shall have the same validity for the issuing of patents thereon, as if the last mentioned law had been still in full force.

7. SECTION VII. That all liens due the commonwealth for unpatented lands, after the first day of November, Anno Domini one thousand eight hundred and sixty-four, may be proceeded upon by the Attorney General of the commonwealth, in the manner directed to be pursued against defaulting public officers, by the act of April sixteenth, one thousand eight hundred and forty-five, and the supplement thereto.

8. SECTION VIII. All persons in the military or naval service of the United States, shall be allowed one year after the expiration of said service, for the taking out of any patent or patents under the provisions of this act.

9. SECTION IX.* That, hereafter, the patent fee, on town lots not exceeding one-fourth of an acre, shall be one dollar, and on lots not exceeding two acres, five dollars.

[Act of 4th April, 1868. P. L. 60.]

A supplement to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini eighteen hundred and sixty-four.

10. SECTION I. That in lieu of the descriptive lists provided for in said act, it shall be the duty of the Surveyor General to make out and forward to the prothonotaries of the several counties, lien dockets, to be styled "land lien dockets," containing lists of all unpatented and patented lands, situate in the counties respectively, upon which there is money due the commonwealth, and in all cases where surveys have been returned, to enter therein the amount of purchase money, interest, and all fees due, and said aggregate shall remain a lien on such tract until

*Section nine changed by act of April 15, 1873.

paid or otherwise legally discharged: *Provided*, That the several prothonotaries shall be allowed to charge the fees now authorized by law when any information shall be desired from said records, and for entering any certificate under the seal of the Surveyor General, setting forth that any lien or part of lien against an unpatented tract has been paid, shall charge the party presenting such certificate a fee of twenty-five cents for entering and filing the same.

11. SECTION II. That the fifth section of the act to which this is a supplement, and so much of said act as is inconsistent herewith, be and the same is hereby repealed.

[Act of 8th April, 1869. P. L. 21.]

An act directing public notice to be given when county land lien dockets are forwarded to the respective counties, and staying proceedings by the Attorney General for one year from the date of forwarding the same.

WHEREAS, The Surveyor General, at an early day, will be prepared to send out the county land lien dockets, containing accounts due the commonwealth on account of lands, prepared under the act approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four, and the supplement thereto, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight:

And whereas, It is proper that the people owing the state, for or on account of lands, should have notice when the liens therefor are entered in the counties, and that a reasonable time should be given to enable them to liquidate their indebtedness and obtain patents for their lands, before suits shall be brought in such cases by the Attorney General; therefore,

12. SECTION I. That when any county land lien docket, prepared under the foregoing acts, shall be forwarded to any county, the Surveyor General is hereby authorized and directed to cause a notice thereof to be given in one English newspaper, published at the county seat of such county, and also in one German newspaper, if there be one in said county, setting forth that the land lien docket for that county has been forwarded to the prothonotary thereof: *Provided*, That no greater sum than ten dollars shall be paid for such notice or advertisement for any one county; and on evidence being submitted to the Auditor General that such advertisement has been authorized by the Surveyor General, and inserted at the usual rates of advertising, he shall draw his warrant on the treasury in favor of the editor or publisher inserting the same.

13. SECTION II. That no suit or suits shall be entered or instituted by the Attorney General, under the provisions of the seventh section of the act of the twentieth of May, Anno Domini one thousand eight hundred and sixty-four, until one year shall have elapsed from the date at which the Surveyor General shall have forwarded to each county, respectively, the land lien docket for the same.

[Act of 15th April, 1869. P. L. 31.]

A further supplement to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of locations or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

WHEREAS, An examination of warrants and returns of surveys show in many cases interferences in said returns, and in many instances where patents have issued on some of said surveys, there are balances due upon other warrants covering the same land: therefore,

14. SECTION I. That whenever satisfactory evidence shall be given to the Surveyor General that a lien or liens have been entered against lands for which the commonwealth has been fully paid, both for land and patent fees, he is hereby authorized, and it shall be his duty, to give to the party or parties applying for the same a release of said lien or liens, so far as said patented lands are concerned; which said release may be entered on the land lien docket, in accordance with the provisions of the supplement to the act of which this is a further supplement, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight.

[As many persons will apply for releases under the provisions of this law, it is deemed proper to state what will be regarded as satisfactory evidence by this department. Applicants, in order to avail themselves of the act, should cause a plot or survey of the patented tracts, and the unpatented interfering tracts (showing the manner in which, and to what extent they cover the same land), to be made by the county surveyor, who will certify that he has made the same at the request of A, B, and C—the owners of the patented tracts, or parts of tracts, or their agents or attorney—giving names of warrantees and dates of warrants and patents, and names and dates of warrants of the unpatented lands, and that he believes the interference or interferences to be as delineated by him. On a paper appended to the above plot of surveys, the applicant or applicants, his or their agent or attorney, will be required to make an affidavit that the interferences are believed to be as delineated by the county surveyor. A release will then be issued to the owner or owners of the patented tract or tracts, relieving them from any and all liability to pay the liens of the commonwealth entered against such interfering unpatented tract or tracts. Section seven of the act approved the 20th day of May, 1864, invested the Attorney General with authority to proceed against the owners of unpatented lands, to enforce the payment of the arrears of purchase money, interest and fees due the commonwealth on said lands. This power, by the following supplement, became vested in the Board of Property.]

[Act of 5th May, 1871. P. L. 261]

A further supplement to an act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

15. SECTION I. That the Board of Property shall have full and discretionary power as to the time of entering suits and the number thereof, to be brought for the collection of liens against unpatented lands; and the Attorney General shall proceed, under the seventh section of the said act, to which this is a further supplement, when authorized to do so by the said board: *Provided*, That no interest shall be charged on patent or other fees.

[Act of 11th April, 1872. P. L. 51.]

A further supplement to an act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of location or other office title, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

16. SECTION I. That for carrying into full effect the provisions of the act to which this is supplementary, it shall be the duty of the Surveyor General to make out and forward to the several county surveyors, respectively, from time to time, as the Board of Property may determine, special lists of warrantee names of unpatented tracts, or remaining parts of unpatented tracts, of lands within the several counties, as the same may appear upon the land lien dockets, with such other data relating thereto as he may deem necessary.

17. SECTION II. That it shall be the duty of the county surveyor of each county, to whom the Surveyor General may send special lists of warrantee names of unpatented tracts or parts of tracts of land, and other data relating thereto, situate in the county for which such surveyor shall have been elected or appointed, to endeavor to ascertain the names and residences of the owners, agents or occupiers, and location of said tracts or parts of tracts, or any of them, and to give personal notice in writing to said owners, agents or occupiers, that said tracts or parts of tracts are unpatented, and that unless the arrearages shall have been paid within six months from the time of sending or serving said notice, the Board of Property may direct proceedings to be commenced by the Attorney General to enforce payment under the provisions of the act to which this is a further supplement: *Provided*, That when unpatented lands, as aforesaid, are occupied, and the owners are non-residents of the county, and have no known agent or agents within the county, the said notice may be given by sending it by mail, addressed to the owners or agents, and directed to the postoffice nearest their place of residence or usual place of business: *And provided further*, That when lands as aforesaid are unseated, and have been sold for taxes, and the time limited for their redemption has not expired, it shall be the duty of the county surveyor to give notice, in the manner hereinbe-

fore provided, to the purchasers or their agents, and also to the parties or their agents, who last paid taxes thereon previous to the sale.

18. SECTION III. That it shall be the duty of the county surveyor to whom such special list shall have been sent as aforesaid, to make a written report, in duplicate, within three months, to the Surveyor General, filing a copy of the same in the prothonotary's office of each county, setting forth the names of warrantees, dates of warrants, location of tracts, and the names and residence of the owners, agents or occupiers of the unpatented tracts or parts of tracts upon whom he has served the notices as aforesaid, together with the manner of service; and for serving such notices on all the owners, agents or occupiers of an original unpatented tract, or remaining part of an original unpatented tract, he shall be entitled to a fee of five dollars, to be paid out of the state treasury on warrants drawn by the Auditor General, upon the certificate of the Surveyor General.

19. SECTION IV. That it shall be the duty of the county surveyor, upon the reasonable request of any owner, or his agent, of part of an original tract which has not been patented, to make and return a return of survey of such part to the Surveyor General, and for which service his fees shall be the same as for executing a warrant of survey as now provided by law for the same quantity of acres.

20. SECTION V. That when any suits shall be entered by the Attorney General under the act to which this is a further supplement, it shall be by *scire facias sur liens*, which shall be directed for service to the sheriff of the county in which the land is situate; and if he finds it necessary to insure a service of said writ he may call to his aid the county surveyor, who shall act as his deputy for the purpose of serving such writ, and all such writs shall be made returnable to the court of common pleas of the county wherein such lands are situate, where all such suits shall be tried.

SECRETARY OF INTERNAL AFFAIRS.

[Constitution, Art. IV.]

[Section I names the Secretary of Internal Affairs as one of the Executive Department, and section 9 constitutes him a member of the Board of Pardons.]

SECTION XIX. [I.] The Secretary of Internal Affairs shall exercise all the powers and perform all the duties of the Surveyor General, subject to such changes as shall be made by law. His department shall embrace

[II.] A Bureau of Industrial Statistics.

[III.] And he shall discharge such duties relating to corporations, to the charitable institutions, the agricultural, manufacturing, mining, mineral, timber and other material or business interests of the state as may be prescribed by law.

[IV.] He shall annually, and at such other times as may be required by law, make report to the General Assembly.

SECTION XXI. The term of the Secretary of Internal Affairs shall be four years. * * * * *

[Art. XVII.]

SECTION XI. The existing powers and duties of the Auditor General in regard to railroads, canals and other transportation companies, except as to their accounts, are hereby transferred to the Secretary of Internal Affairs, who shall have a general supervision over them, subject to such regulations and alterations as shall be provided by law; and, in addition to the annual reports now required to be made, said Secretary may require special reports at any time upon any subject relating to the business of said companies from any officer or officers thereof.

[These provisions of the constitution are enforced by acts of assembly, passed in pursuance thereof, approved respectively on the 11th day of May, 1874, P. L. 135; the 15th day of May, 1874, P. L. 172 and 193, and by the following]:

[Act of 8th May, 1876. P. L. 143.]

A further supplement to an act regulating the election of Secretary of Internal Affairs, defining his duties and fixing his salary, approved the eleventh day of May, Anno Domini one thousand eight hundred and seventy-four.

SECTION I. That the Secretary of Internal Affairs and his chief clerk, who shall hereafter be designated deputy secretary of internal affairs, shall have power and authority to administer oaths or affirmations in any or all matters pertaining to the business of his department.

SECTION II. All maps, drafts, reports and other papers relating to surveys of state or county lines, state or turnpike roads, railroads, canals, or other public improvements now remaining in the office of the Secretary of the Commonwealth, and not connected with the other records of his office, shall as soon as practicable after the passage of this act, be transferred to the Secretary of Internal Affairs, who is hereby authorized and directed to receive and deposit the same in his department; and all such maps, drafts, reports and papers as are now by law required to be placed in the office of the Secretary of the Commonwealth, shall hereafter be deposited in the Department of Internal Affairs.

SECTION III. It shall be the duty of all commissions appointed to re-establish any of the boundary lines of this commonwealth, to erect a new county, or to annex part of one county to another county, to transmit a copy of their report to the Secretary of Internal Affairs, to be by him deposited in his department.

SECTION IV. It shall be the duty of all commissions appointed to re-survey, re-mark, alter or change any county line, to deposit duplicate copies of their report in the office of the clerk of the court of quarter sessions of the proper county; and after the same has been confirmed

by said court, the said clerk shall, upon one of the copies, certify such confirmation, and immediately transmit the same by mail to the Secretary of Internal Affairs, to be by him deposited in his department.

SECTION V. Copies of all records, documents, entries and papers now in the Department of Internal Affairs, or that may be transferred thereto in pursuance of this act, or that may hereafter be deposited therein according to law, shall be made and certified at the request of any person applying for the same, on the payment of the same fees as was prescribed by the fee bill for similar services in the Surveyor General's office at the time the same was merged into said department, which fees shall be accounted for and paid into the treasury in the same manner as is now provided by law for other fees, to be collected by the said Secretary; and the said copies shall be received in evidence in the several courts of this commonwealth, in all cases where the original records, documents, entries and papers would be admitted in evidence.

WARRANTS.

[Act of 14th April, 1874. P. L. 58.]

An act relative to the issuing of warrents to survey vacant lands.

SECTION I. That every applicant for a warrant to survey any of the vacant lands of this commonwealth shall produce to the Surveyor General a particular description of the land applied for, with an affidavit of a disinterested witness, made before a justice of the peace in the township or borough in which the land applied for, or the greater portion of it, is situate, or if there be no justice of the peace in such township or borough, before a justice of an adjoining township or borough, specifying whether the said land be improved or not, and if improved, how long since the said improvement was made, that interest may be charged as now provided by law. The applicant for such warrant shall declare, upon oath or affirmation, before a justice of the peace of the township or borough in which the land, or greater portion of the same, is situate, or if there be no justice in such township or borough, before a justice of an adjoining township or borough, that he verily believes that no warrant or other office right has previously issued for such land, or if one has issued, after giving full particulars in relation thereto, shall depose that he verily believes it has been abandoned; and if at any time thereafter it shall appear that the person or persons deposing, as aforesaid, or any of them, shall knowingly have sworn falsely, such person or persons shall suffer all the pains and penalties of perjury.

SECTION II. No warrant shall issue for any tract or piece of land on which settlement is made, or which may be either in whole or in part cleared and fenced, or otherwise improved, used or occupied and held by defined boundaries, unless to such person or persons, respectively,

who have made the settlement, clearing, fencing or improvement, their legal representatives or assigns, upon proof of ownership of such settlement or improvement right, and if any warrant shall issue otherwise than as aforesaid, it shall be void: *Provided*, That this section shall not apply to abandoned improvements.

SECTION III. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the Surveyor General, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate, and nearest its location, and shall furnish proof that such notice has been given before a warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property, and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant the purchase money shall be returned to the applicant.

SECTION IV. This act shall not apply to applications for warrants filed with the Surveyor General before its passage

[Act of 23d of April, 1889. P. L. 46.]

An act to amend section three of an act approved the fourteenth day of April, one thousand eight hundred and seventy-four, entitled "An act relative to the issuing of warrants to survey vacant lands," providing for the payment of purchase money and fees due the commonwealth, and regulating the consideration of *caveats* filed against the granting of warrants.

SECTION 1. *Be it enacted, etc.*, That section three of the act approved the fourteenth day of April, one thousand eight hundred and seventy-four, entitled "An act relative to the issuing of warrants to survey vacant lands," which section provides as follows:

"SECTION 3. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant and depositing the amount of the purchase money and fee with the Surveyor General, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate and nearest its location, and shall furnish proof that such notice has been given before warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property; and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant, the purchase money shall be returned to the applicant," be and the same is hereby amended to read as follows:

SECTION 3. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the Secretary of Internal Affairs, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate and nearest its location, and shall furnish proof that such notice has been given before a warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property; and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant, the purchase money shall be returned to the applicant: *Provided*, That *caveats* presented by those who claim to have acquired title, by virtue of settlement and improvement rights, shall not be received as such, or prevent the granting of warrants unless the *caveator* shall deposit with the *caveat* the purchase money, interest, warrant and patent fees as provided by law, which purchase money and fees shall be retained as a deposit until a decision is had as to the respective rights of the parties, and if such decision be adverse to the *caveator*, then the money deposited shall be refunded on application made, and vouchers executed, as required by the Secretary of Internal Affairs: *Provided further*, That settlement and improvement rights shall only be acquired and recognized as such by an actual entry upon vacant land of the commonwealth, with the manifest intention of making it a place of abode, together with an actual improvement of the land by clearing and tilling the soil for the purpose of gaining support thereby, and also defining the limits of such claim by survey and well marked lines. No action at law shall be maintained by the person or persons claiming settlement and improvement rights, neither shall such person, or persons, be permitted to set up a defense based on such rights, unless the purchase money and fees aforesaid shall have been paid to the commonwealth. All acts or parts of acts inconsistent with the provisions of this amendment be and the same are hereby repealed.
